 5. **Public Comment** (Members of the Public are permitted to speak after coming to the podium and stating their names.)
 6. **Executive Session (if necessary)**
 7. **Recess or Adjourn**
-

Explanation

1. **A Special Ordinance granting a variance to Chapter 34, “WATER AND SEWERS,” Section 34-3403, “ENVIRONMENTAL REMEDIATION WASTEWATERS,” of the Moline Code of Ordinances, to negotiate an Environmental Remediation Wastewaters (ERW) discharge fee, and authorizing the Director of Public Works to negotiate an Environmental Remediation Wastewaters (ERW) discharge fee with the Illinois Department of Transportation for the construction of the I-74 Bridge.** (Tony Loete, Utilities General Manager)

Explanation: The I-74 Bridge construction requires dewatering and removal of groundwater, and the groundwater in question has been classified as Environmental Remediation Wastewater (ERW), which requires treatment. The City has a Publicly Owned Treatment Works and wastewater collection system capable of receiving the ERW, and Section 34-3403 of the Moline Code of Ordinances defines the requirements and fees associated with the discharge of ERW to the City’s Publicly Owned Treatment Works (POTW). The volume of ERW expected to be discharged from the bridge construction is significant, and in the spirit of intergovernmental cooperation as permitted by state law, staff would like to negotiate a fee for the discharge instead of strictly adhering to the normal fee schedule for such discharge given the amount and given the importance of the project from which the discharge is resulting. The fee defined within Section 34-3403 was intended for smaller volumes of ERW. Additional documentation attached. This item will also appear on the City Council Agenda on October 10, 2017, under “Items Not on Consent” for first reading.

Staff Recommendation: Approval
Fiscal impact: Increased Revenue to Water Pollution Control Fund
Public Notice/Recording: N/A
Goals Impacted: Financially Strong City; Strong Local Economy; Upgrade City Infrastructure and Facilities; A Great Place to Live

Industrial Sewer Use Permit Ground Water Discharge

City of Moline
Water Pollution Control Division
2800 48 Avenue
Moline, IL 61265

EFFECTIVE DATE: OCTOBER 6, 2017
EXPIRATION DATE: DECEMBER 31, 2018
ISSUE DATE: OCTOBER 6, 2017

Name and Address of Permittee:

**Illinois DOT District 2
819 Depot Avenue Drive
Dixon, IL 61021**

Project Name & Location:

**I74 Bridge IDOT Project # 64C08
Mississippi River
Moline IL 61265**

In accordance with the provisions identified in the Moline Code of Ordinances, Chapter 34, Division 4 – Use of Public Sewers, the above-named source Permittee is hereby authorized to discharge from the above location into the City of Moline sanitary sewer collection system through outfalls identified and in accordance with the standard conditions and attachments herein.

Permittee is not authorized to discharge after the above expiration date. In order to receive authorization to discharge beyond the expiration date, the Permittee shall submit the proper renewal application as required by the City of Moline, Department of Public Works, not later than ninety (90) days prior to the permit expiration date.

This permit is non-transferable without prior notification to the City in accordance with Sec. 34-3405(e) of this ordinance.

Permittee is required to have on file with the City of Moline a Best Management Practices Plan for Slug Control/Accidental Discharge contingencies.

Civil and criminal penalties apply to any violation of pretreatment standards, rules, requirements, or any applicable compliance schedule. Such compliance schedules may not extend the compliance date beyond applicable federal deadlines.

A handwritten signature in black ink, appearing to read "JD Schulte".

JD Schulte, Director
Department of Public Works
