Council, Staff and Citizen Comments:

Alderman Timion read a prepared statement in which he noted that there have been 4 local bicyclists killed in the past few weeks. Alderman Timion explained that he was also struck by a vehicle while riding. He stated that such accidents often go unreported and thus are not included in statistics, and motorists are not held accountable. Alderman Timion suggested that alternative modes of transportation must be included in the City's infrastructure plan. Timion indicated that the City's Bikeways Plan has not been implemented, because there is not staff to support it. He urged the Council to make the City livable: drivable, walkable, bikeable.

Alderman Wendt echoed Alderman Timion's comments and encouraged the hire of staff that will support implementation of the Bikeways Plan.

Chief of Police Darren Gault and Fire Chief Jeff Snyder indicated that there have not been many fireworks calls/complaints so far this month.

Mayor Rayapati shared that the I-74 bridge project is on track for completion by the end of the year and that last night's listening post was well-attended. The City has not yet received its first disbursement of American Rescue Plan funds. A regional conversation to prioritize the use of these funds is planned, and Mayor Rayapati will compile that information and share it with the Council.
