

Council Bill/General Ordinance No. 3016-2023

Sponsor:

AN ORDINANCE

AMENDING Chapter 6, "RIGHTS-OF-WAY AND PUBLIC PROPERTY USES," of the Moline Code of Ordinances, by repealing Chapter 6 in its entirety and enacting in lieu thereof one new Chapter 6 dealing with the same subject matter.

WHEREAS, the City is an Illinois municipal corporation possessing home rule powers under Section 6 of Article VII of the Illinois Constitution; and

WHEREAS, amendments to Chapter 6 are necessary to bring the ordinance in line with current practices and procedures for both managing and operating in the City's right-of-way; and

WHEREAS, the suggested amendments reflect both current practices and revisions recommended by many of the utility and telecommunication companies operating in the right-of-way; and

WHEREAS, it is expected that the proposed ordinance amendments will result in better clarity with defined expectations as to how utilities are to place, maintain and operate within the right-of-way.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF MOLINE, ILLINOIS, as follows:

Section 1 – That Chapter 6, "RIGHTS-OF-WAY AND PUBLIC PROPERTY USES," of the Moline Code of Ordinances, is hereby amended by repealing Chapter 6 in its entirety and enacting in lieu thereof one new Chapter 6 dealing with the same subject matter, which shall read as attached (additions in underline; deletions in strikethrough).

Section 2 – All ordinances and parts of ordinances in conflict with this Ordinance are hereby repealed to the extent necessary to give effect to the provisions of this Ordinance.

Section 3 – This ordinance and every provision thereof shall be considered severable. If any word, phrase, clause, sentence, paragraph, provision, section, or part of this Ordinance is found to be void, unconstitutional, or otherwise unenforceable, all remaining portions of this Ordinance not so declared void, unconstitutional, or unenforceable shall remain in full force and effect.

Section 4 – This Ordinance will be in full force and effect upon passage, approval and publication in pamphlet form in the manner provided by law.

CHAPTER 6

RIGHTS-OF-WAY AND PUBLIC PROPERTY USES

Art. I. Standards for Construction of Facilities on Rights-of-Way, §6-1100 - §6-1123

Art. II. Insurance Requirements for Licensing Agreements on Public Property and Rights-of-Way, §6-2100 - §6-2106

Art. III. Small Wireless Facilities Deployment, §6-3100 - §6-3107

ARTICLE I. STANDARDS FOR CONSTRUCTION OF FACILITIES ON RIGHTS-OF-WAY.

SEC. 6-1100. PURPOSE AND SCOPE.

(a) Purpose. The purpose of this article is to establish policies and procedures for constructing facilities on rights-of-way within the City's jurisdiction, which will provide public benefit consistent with the preservation of the integrity, safe usage, and visual qualities of the City rights-of-way and the City as a whole.

(b) Intent. In enacting this article, the City intends to exercise its authority over the rights-of-way in the City and, in particular, the use of the public ways and property by utilities, by establishing uniform standards to address issues presented by utility facilities, including without limitation:

- (1) prevent interference with the use of streets, sidewalks, alleys, parkways and other public ways and places;
- (2) prevent the creation of visual and physical obstructions and other conditions that are hazardous to vehicular and pedestrian traffic;
- (3) prevent interference with the facilities and operations of the City's utilities and of other utilities lawfully located in rights-of-way or public property;
- (4) protect against environmental damage, including damage to trees, from the installation of facilities;
- (5) protect against increased stormwater run-off due to structures and materials that increase impermeable surfaces;
- (6) preserve the character of the neighborhoods in which facilities are installed;
- (7) preserve open space, particularly the tree-lined parkways that characterize certain neighborhoods, districts, and corridors;
- (8) prevent visual blight from the proliferation of facilities in the rights-of-way; and
- (9) assure the continued safe use and enjoyment of private properties adjacent to facilities locations.

(c) Facilities Subject to this Article. This article applies to all facilities on, over, above, along, upon, under, across, or within the rights-of-way within the jurisdiction of the City. A facility lawfully established prior to the effective date of this article may continue to be maintained, repaired and operated by the wireless provider or utility as presently constructed and located, except as may be otherwise provided in any applicable franchise, license or similar agreement.

Additionally, all facilities lawfully established prior to the effective date of this article shall comply with the requirements of this article within sixty (60) days of the expiration date of any applicable franchise, license or similar agreement. If no such agreement exists, an established facility must comply with the requirements of this article within sixty (60) days of the effective date of this article. The director of public-worksenineering may waive certain requirements of this article for lawfully established facilities if such requirements are unduly burdensome or are not feasible given that the facilities have already been established.

(d) Franchises, Licenses, or Similar Agreements. The City, in its discretion and as limited by law, may require utilities to enter into a franchise, license or similar agreement for the privilege of locating their facilities on, over, above, along, upon, under, across, or within the City rights-of-way. Utilities that are not required by law to enter into such an agreement may request that the City enter into such an agreement. In such an agreement, the City may provide for terms and conditions inconsistent with this article.

(e) Effect of Franchises, Licenses, or Similar Agreements.

(1) Utilities Other Than Telecommunications Providers. In the event that a utility other than a telecommunications provider has a franchise, license or similar agreement with the City, such franchise, license or similar agreement shall govern and control during the term of such agreement and any lawful renewal or extension thereof.

(2) Telecommunications Providers. In the event of any conflict with, or inconsistency between, the provisions of this article and the provisions of any franchise, license or similar agreement between the City and any telecommunications provider, the provisions of such franchise, license or similar agreement shall govern and control during the term of such agreement and any lawful renewal or extension thereof.

(f) Conflicts with Other Articles. This article supersedes all articles or parts of articles adopted prior hereto that are in conflict herewith, to the extent of such conflict.

(g) Conflicts with State and Federal Laws. In the event that applicable federal or state laws or regulations conflict with the requirements of this article, the utility shall comply with the requirements of this article to the maximum extent possible without violating federal or state laws or regulations.

(h) Sound Engineering Judgment. The City shall use sound engineering judgment when administering this article and may exercise the power described in Section 6-1120 to vary the standards, conditions, and requirements expressed in this article when the City so determines. Nothing herein shall be construed to limit the ability of the City to regulate its rights-of-way for the protection of the public health, safety and welfare.

(Ord. No. 3044-2020; Sec. 6-1100 repealed; new Sec. 6-1100 enacted; 12/15/20)

SEC. 6-1101. DEFINITIONS.

As used in this chapter and unless the context clearly requires otherwise, the words and terms listed shall have the meanings ascribed to them in this section. Any term not defined in this section shall have the meaning ascribed to it in 92 Ill. Adm. Code § 530.30, unless the context clearly requires otherwise.

- (1) "Act" - Public Act 100-0585, known as the Small Wireless Facilities Deployment Act.
- (2) "AASHTO" - American Association of State Highway and Transportation Officials.
- (3) "ANSI" - American National Standards Institute.
- (4) "Antenna" - Communications equipment that transmits or receives electromagnetic radio frequency signals used in the provision of any type of wireless communications services.
- (5) "Applicable codes" - Uniform building, fire, electrical, plumbing, or mechanical codes adopted by a recognized national code organization or local amendments to those codes, including the National Electric Safety Code.
- (6) "Applicant" - A person applying for a permit under this article.
- (7) "Application" - A request submitted by an applicant to the City for a permit to collocate small wireless facilities, and a request that includes the installation of a new utility pole for such collocation, as well as any applicable fee for the review of such application.
- (8) "ASTM" - American Society for Testing and Materials.
- (9) "Backfill" - The methods or materials for replacing excavated material in a trench or pit.
- (10) "Bore" or "Boring" - To excavate an underground cylindrical cavity for the insertion of a pipe, conduit, or electrical conductor.
- (11) "Cable operator" - That term as defined in 47 U.S.C. 522(5).
- (12) "Cable service" - That term as defined in 47 U.S.C. 522(6).
- (13) "Cable system" - That term as defined in 47 U.S.C. 522(7).
- (14) "Carrier Pipe" - The pipe enclosing the liquid, gas or slurry to be transported.
- (15) "Casing" - A structural protective enclosure for transmittal devices such as: carrier pipes, electrical conductors, and fiber optic devices.
- (16) "City" - The City of Moline.
- (17) "Clear Zone" - The total roadside border area, starting at the edge of the pavement, available for safe use by errant vehicles. This area may consist of a shoulder, a recoverable slope, a non-recoverable slope, and a clear run-out area. The desired width is dependent upon the traffic volumes and speeds, and on the roadside geometry. Distances are specified in the AASHTO Roadside Design Guide.
- (18) "Coating" - Protective wrapping or mastic cover applied to buried pipe for protection against external corrosion.
- (19) "Code" - The City of Moline Code of Ordinances.
- (20) "Collocate" or "collocation" - To install, mount, maintain, modify, operate, or replace wireless facilities on or adjacent to a wireless support structure or utility pole.
- (21) "Communications service" - Cable service, as defined in 47 U.S.C. 522(6), as amended; information service, as defined in 47 U.S.C. 153(24), as amended; telecommunications service, as defined in 47 U.S.C. 153(53), as amended; mobile service, as defined in 47 U.S.C. 153(33), as amended; or wireless service other than mobile service.
- (22) "Communications service provider" - A cable operator, as defined in 47 U.S.C. 522(5), as amended; a provider of information service, as defined in 47 U.S.C. 153(24), as amended; a telecommunications carrier, as defined in 47 U.S.C. 153(51), as amended; or a wireless provider.
- (23) "Conductor" - Wire carrying electrical current.
- (24) "Conduit" - A casing or encasement for wires or cables.

(25) "Construction" or "construct" - The installation, repair, maintenance, placement, alteration, enlargement, demolition, modification or abandonment in place of facilities.

(26) "Cover" - The depth of earth or backfill over buried utility pipe or conductor.

(27) "Crossing facility" - A facility that crosses one or more right-of-way lines of a right-of-way.

(28) "Director of ~~public-worksengineering~~" - The City director of ~~public-worksengineering~~ or his or her designee.

(29) "Disrupt the right-of-way" - For the purposes of this article, any work that obstructs the right-of-way or causes a material adverse effect on the use of the right-of-way for its intended use. Such work may include, without limitation, the following: excavating or other cutting; placement (whether temporary or permanent) of materials, equipment, devices, or structures; damage to vegetation; and compaction or loosening of the soil, and shall not include the parking of vehicles or equipment in a manner that does not materially obstruct the flow of traffic on a highway.

(30) "Emergency" - Any immediate maintenance to the facility required for the safety of the public using or in the vicinity of the right-of-way or immediate maintenance required for the health and safety of the general public served by the utility.

(31) "Encasement" - Provision of a protective casing.

(32) "Equipment" - Materials, tools, implements, supplies, and/or other items used to facilitate construction of facilities.

(33) "Excavation" - The making of a hole or cavity by removing material, or laying bare by digging.

(34) "Extra heavy pipe" - Pipe meeting ASTM standards for this pipe designation.

(35) "Facility" - All structures, devices, objects, and materials (including, but not limited to, track and rails, wires, ducts, fiber optic cable, antennas, vaults, boxes, equipment enclosures, cabinets, pedestals, poles, conduits, grates, covers, pipes, cables, small wireless facilities, as defined in this section, and appurtenances thereto) located on, over, above, along, upon, under, across, or within rights-of-way under this article. For purposes of this article, the term "facility" shall not include any facility owned or operated by the City.

(36) "FCC" - The Federal Communications Commission of the United States.

(37) "Fee" - A one-time charge.

(38) "Freestanding facility" - A facility that is not a crossing facility or a parallel facility, such as a monopole, utility pole, antenna, transformer, pump, or meter station.

(39) "Frontage road" - Roadway, usually parallel, providing access to land adjacent to the highway where it is precluded by control of access to a highway.

(40) "Hazardous materials" - Any substance or material which, due to its quantity, form, concentration, location, or other characteristics, is determined by the director of ~~public-worksengineering~~ to pose an unreasonable and imminent risk to the life, health or safety of persons or property or to the ecological balance of the environment, including, but not limited to explosives, radioactive materials, petroleum or petroleum products or gases, poisons, etiology (biological) agents, flammables, corrosives or any substance determined to be hazardous or toxic under any federal or state law, statute or regulation.

(41) "Highway Code" - The Illinois Highway Code, 605 ILCS 5/1-101 et seq., as amended from time to time.

(42) "Highway" - A specific type of right-of-way used for vehicular traffic including rural or urban roads or streets. "Highway" includes all highway land and improvements, including roadways, ditches and embankments, bridges, drainage structures, signs, guardrails, protective structures and appurtenances necessary or convenient for vehicle traffic.

(43) "Historic district" or "historic landmark" - A building, property, or site, or group of buildings, properties, or sites that are either (i) listed in the National Register of Historic Places or formally determined eligible for listing by the Keeper of the National Register, the individual who has been delegated the authority by the federal agency to list properties and determine their eligibility for the National Register, in accordance with Section VI.D.1.a.i through Section VI.D.1.a.v of the Nationwide Programmatic Agreement codified at 47 CFR Part 1, Appendix C; or (ii) designated as a locally landmarked building, property, site, or historic district by an ordinance adopted by the City pursuant to a preservation program that meets the requirements of the Certified Local Government Program of the Illinois State Historic Preservation Office or where such certification of the preservation program by the Illinois State Historic Preservation Office is pending.

(44) "Holder" - A person or entity that has received authorization to offer or provide cable or video service from the ICC pursuant to the Illinois Cable and Video Competition Law, 220 ILCS 5/21-401.

(45) "IDOT" - Illinois Department of Transportation.

(46) "ICC" - Illinois Commerce Commission.

(47) "Jacking" - Pushing a pipe horizontally under a roadway by mechanical means with or without boring.

(48) "Jetting" - Pushing a pipe through the earth using water under pressure to create a cavity ahead of the pipe.

(49) "Joint use" - The use of pole lines, trenches or other facilities by two or more utilities.

(50) "J.U.L.I.E." - The Joint Utility Locating Information for Excavators utility notification program.

- (51) "Law" - A federal or state statute, common law, code, rule, regulation, order, or local ordinance or resolution.
- (52) "Major intersection" - The intersection of two or more major arterial highways.
- (53) "Micro wireless facility" - A small wireless facility that is not larger in dimension than twenty-four (24) inches in length, fifteen (15) inches in width, and twelve (12) inches in height and that has an exterior antenna, if any, no longer than eleven (11) inches.
- (54) "Monopole" - A structure composed of a single spire, pole or tower designed and principally used to support antennas or related equipment and that is not a utility pole.
- (55) "Municipally-owned infrastructure" - Infrastructure in the public right-of-way within the boundaries of the City, including, but not limited to, streetlights, traffic signals, towers, pipes, structures, or buildings owned, operated or maintained by the City.
- (56) "Municipal utility pole" - A utility pole owned or operated by the City in public rights-of-way.
- (57) "Occupancy" - The presence of facilities on, over or under right-of-way.
- (58) "Parallel facility" - A facility that is generally parallel or longitudinal to the centerline of a right-of-way.
- (59) "Parkway" - Any portion of the right-of-way not improved by street or sidewalk.
- (60) "Pavement cut" - The removal of an area of pavement for access to facility or for the construction of a facility.
- (61) "Permit" - A written authorization required by the City to perform an action or initiate, continue, or complete a project.
- (62) "Permittee" - That entity to which a permit has been issued pursuant to Sections 6-1104 and 6-1105 of this article.
- (63) "Person" - An individual, corporation, limited liability company, partnership, association, trust, or other entity or organization.
- (64) "Practicable" - That which is performable, feasible or possible, rather than that which is simply convenient.
- (65) "Pressure" - The internal force acting radially against the walls of a carrier pipe expressed in pounds per square inch gauge (psig).
- (66) "Petroleum products pipelines" - Pipelines carrying crude or refined liquid petroleum products including, but not limited to, gasoline, distillates, propane, butane, or coal-slurry.
- (67) "Prompt" - That which is done within a period of time specified by the City. If no time period is specified, the period shall be thirty (30) days.
- (68) "Public entity" - A legal entity that constitutes or is part of the government, whether at local, state or federal level.
- (69) "Public safety agency" - The functional division of the federal government, the state, a unit of local government, or a special purpose district located in whole or in part within this state, that provides or has authority to provide firefighting, police, ambulance, medical, or other emergency services to respond to and manage emergency incidents.
- (70) "Rate" - A recurring charge.
- (71) "Restoration" - The repair of a right-of-way, highway, roadway, or other area disrupted by the construction of a facility.
- (72) "Right-of-way" or "rights-of-way" - The area on, below, or above any public roadway, highway, street, alley other land or waterway, dedicated or commonly used for pedestrian or vehicular traffic or other similar purposes, including utility easements, in which the City has the right and authority to authorize, regulate or permit the location of facilities other than those of the City. "Right-of-way" or "rights-of-way" shall not include any real or personal City property that is not specifically described in the previous two (2) sentences and shall not include City buildings, fixtures and other structures or improvements, regardless of whether they are situated in the right-of-way. Right-of-way does not include City-owned aerial lines.
- (73) "Roadway" - That part of the highway that includes the pavement and shoulders.
- (74) "Sale of telecommunications at retail" - The transmitting, supplying, or furnishing of telecommunications and all services rendered in connection therewith for a consideration, other than between a parent corporation and its wholly owned subsidiaries or between wholly owned subsidiaries, when the gross charge made by one such corporation to another such corporation is not greater than the gross charge paid to the retailer for their use or consumption and not for sale.
- (75) "Security fund" - That amount of security required pursuant to Section 6-1109.
- (76) "Shoulder" - A width of roadway, adjacent to the pavement, providing lateral support to the pavement edge and providing an area for emergency vehicular stops and storage of snow removed from the pavement.
- (77) "Sound engineering judgment" - A decision(s) consistent with generally accepted engineering principles, practices and experience.
- (78) "Small wireless facility" - A wireless facility that meets both of the following qualifications: (i) each antenna is located

inside an enclosure of no more than six (6) cubic feet in volume or, in the case of an antenna that has exposed elements, the antenna and all of its exposed elements could fit within an imaginary enclosure of no more than six (6) cubic feet; and (ii) all other wireless equipment attached directly to a utility pole associated with the facility is cumulatively no more than twenty-five (25) cubic feet in volume. The following types of associated ancillary equipment are not included in the calculation of equipment volume: electric meter, concealment elements, telecommunications demarcation box, ground-based enclosures, grounding equipment, power transfer switch, cut-off switch, and vertical cable runs for the connection of power and other services.

(79) "Telecommunications" - This term includes, but is not limited to, messages or information transmitted through use of local, toll and wide area telephone service, channel services, telegraph services, teletypewriter service, computer exchange service, private line services, mobile radio services, cellular mobile telecommunications services, stationary two-way radio, paging service and any other form of mobile or portable one-way or two-way communications, and any other transmission of messages or information by electronic or similar means, between or among points by wire, cable, fiber optics, laser, microwave, radio, satellite, or similar facilities. "Private line" means a dedicated non-traffic sensitive service for a single customer that entitles the customer to exclusive or priority use of a communications channel, or a group of such channels, from one (1) or more specified locations to one (1) or more other specified locations. "Telecommunications" shall not include value added services in which computer processing applications are used to act on the form, content, code and protocol of the information for purposes other than transmission. "Telecommunications" shall not include purchase of telecommunications by a telecommunications service provider for use as a component part of the service provided by such provider to the ultimate retail consumer who originates or terminates the end-to-end communications. "Telecommunications" shall not include the provision of cable services through a cable system as defined in the Cable Communications Act of 1984 (47 U.S.C. Sections 521 and following), as now or hereafter amended, or cable or other programming services subject to an open video system fee payable to the City through an open video system as defined in the Rules of the Federal Communications Commission (47 C.F.R. § 76.1500 and following), as now or hereafter amended.

(80) "Telecommunications provider" - Means any person that installs, owns, operates or controls facilities in the right-of-way used or designed to be used to transmit telecommunications in any form.

(81) "Telecommunications retailer" - Means and includes every person engaged in making sales of telecommunications at retail as defined herein.

(82) "Trench" - A relatively narrow open excavation for the installation of an underground facility.

(83) "Utility" - The individual or entity owning or operating any facility that is not a small wireless facility as defined in this article.

(84) "Utility pole" - An upright pole designed and used to support electric cables, telephone cables, telecommunication cables, cable service cables, which are used to provide lighting, traffic control, signage, or a similar function.

(85) "Vent" - A pipe to allow the dissipation into the atmosphere of gases or vapors from an underground casing.

(86) "Video service" - That term as defined in section 21-201 (v) of the Illinois Cable and Video Competition Law of 2007, 220 ILCS 21-201(v).

(87) "Water lines" - Pipelines carrying raw or potable water.

(88) "Wet boring" - Boring using water under pressure at the cutting auger to soften the earth and to provide a sluice for the excavated material.

(89) "Wireless facility" - Equipment at a fixed location that enables wireless communications between user equipment and a communications network, including: (i) equipment associated with wireless communications; and (ii) radio transceivers, antennas, coaxial or fiber-optic cable, regular and backup power supplies, and comparable equipment, regardless of technological configuration. "Wireless facility" includes small wireless facilities. "Wireless facility" does not include: (i) the structure or improvements on, under, or within which the equipment is collocated; or (ii) wireline backhaul facilities, coaxial or fiber optic cable that is between wireless support structure or utility poles or coaxial, or fiber optic cable that is otherwise not immediately adjacent to or directly associated with an antenna.

(90) "Wireless infrastructure provider" - Any person authorized to provide telecommunications service in the state that builds or installs wireless communication transmission equipment, wireless facilities, wireless support structures, or utility poles and that is not a wireless services provider but is acting as an agent or a contractor for a wireless services provider for the application submitted to the City.

(91) "Wireless provider" - A wireless infrastructure provider or a wireless service provider.

(92) "Wireless services" - Any services provided to the general public, including a particular class of customers, and made available on a nondiscriminatory basis using licensed or unlicensed spectrum, whether at a fixed location or mobile, provided using wireless facilities.

(93) "Wireless services provider" - A person who provides wireless services.

(94) "Wireless support structure" - A freestanding structure, such as a monopole; tower, either guyed or self-supporting; billboard; or other existing or proposed structure designed to support or capable of supporting wireless facilities. "Wireless support structure" does not include a utility pole.

SEC. 6-1102. ANNUAL REGISTRATION REQUIRED.

Every wireless provider or utility that occupies right-of-way within the City shall register on January 1 of each year with the director of public-worksengineering, providing the registrant's name, address and regular business telephone and teletype numbers, the name of one (1) or more contact persons who can act on its behalf in connection with emergencies involving the registrant's facilities in the right-of-way and a twenty-four (24)-hour telephone number for each such person, and evidence of insurance as required in Section 6-1107 of this article, in the form of a certificate of insurance.

(Ord. No. 3044-2020; Sec. 6-1102 repealed; new Sec. 6-1102 enacted; 12/15/20)

SEC. 6-1103. PERMIT REQUIRED; APPLICATIONS AND FEES.

(a) Permit Required. No person shall construct (as defined in this article) any facility on, over, above, along, upon, under, across, or within any City right-of-way which (1) changes the location of the facility, (2) adds a new facility, (3) disrupts the right-of-way (as defined in this article), or (4) materially increases the amount of area or space occupied by the facility on, over, above, along, under, across or within the right-of-way, without first filing an application with the director of public-worksengineering and obtaining a permit from the City therefor, except as otherwise provided in this article. No permit shall be required for the following, and the City will require notification via on-line form provided by the City:

(1) Installation and maintenance of service connections to customers' premises, including electrical drop and restore projects where there will be no disruption of the right-of-way;

(2) Relocation of equipment to a new utility pole or adding risers where there will be no disruption of the right-of-way;

(3) Overlashing of fiber optic cable where there will be no disruption of the right-of-way;

(4) Installation of security lighting onto an existing pole or structure where there will be no disruption of the right-of-way;

(5) No permit shall be required for any right-of-way use by the City. No permit shall be required for routine maintenance, the replacement of small wireless facilities that are substantially similar, the same size or smaller, if the wireless provider notifies the City at least ten (10) days prior to the planned replacement, or the installation, placement, maintenance, operation, or replacement of micro wireless facilities that are suspended on cables strung between existing utility poles in compliance with applicable safety codes.

No permit shall be required for any right-of-way use by the City. The City may require a permit to work within the right-of-way for activities that affect traffic patterns or that require lane closures. All lane closures will follow the requirements of the Illinois Manual of Uniform Traffic Control Devices.

(b) Permit Application. All applications for permits pursuant to this article shall be filed on a form provided by the City and shall be filed in such number of duplicate copies as the City may designate. The applicant may designate those portions of its application materials that it reasonably believes contain proprietary or confidential information as "proprietary" or "confidential" by clearly marking each page of such materials accordingly.

(b) Any utility or contractor found to be working in the right-of-way without the appropriate permit will be required to secure the necessary permit to work in the right-of-way at a cost of three times the standard permit application fee.

(c) Minimum General Application Requirements. The application shall be made by the wireless provider or utility or the duly authorized representative and shall contain, at a minimum, the following:

(1) The applicant's name and address and telephone and teletype numbers;

(2) The applicant's name and address, if different than the wireless provider or utility, its telephone, teletype numbers, e-mail address, and its interest in the work;

(3) The names, addresses and telephone and teletype numbers and e-mail addresses of all professional consultants, if any, advising the applicant with respect to the application;

(4) A general description of the proposed work and the purposes and intent of the facility and the uses to which the facility will be put. The scope and detail of such description shall be appropriate to the nature and character of the work to be performed, with special emphasis on those matters likely to be affected or impacted by the work proposed;

(5) Evidence that the wireless provider or utility has placed on file with the City:

a. A written traffic control plan demonstrating the protective measures and devices that will be employed consistent with the Illinois Manual on Uniform Traffic Control Devices, to prevent injury or damage to persons or property and to minimize disruptions to efficient pedestrian and vehicular traffic; and

b. An emergency contingency plan which shall specify the nature of potential emergencies, including, without limitation, construction and hazardous materials emergencies, and the intended response by the applicant. The intended response shall include notification to the City and shall promote protection of the safety and convenience of the public. Compliance with ICC regulations for emergency contingency plans constitutes compliance with this section unless the City finds that additional information or assurances are needed;

(6) Drawings, plans (to scale) and specifications that show the work proposed, and comply with applicable codes, rules,

and regulations; including:

- (a.) Applicant shall show right of way lines on the plans;
- (b.) Applicant shall show the horizontal distance of the utility dimensed to right of way lines;
- (c.) Applicant shall show the vertical depth of the utility;

(d.) Applicant shall show the detailed depth of utility and depth of public utility at every public utility conflict in the work area;

- a. Applicant will maintain a one (1) foot vertical separation between new facilities and public utilities.
- b. Applicant will maintain a five (5) foot horizontal separation between new facilities and public utilities.

- (7) Evidence of insurance as required in Section6-1107 of this article;
- (8) Evidence of posting of the security fund as required in Section6-1109 of this article;

(9) Separation requirements may be waived by the director of engineering where the requirements may have negative impacts on public safety, or if such installation would be unduly burdensome.

~~(9)~~ Any request for a variance from one (1) or more provisions of this article (See Section6-1120); and

(10) Such additional information as may be reasonably required by the City.

(d) Supplemental Application Requirements for Specific Types of Facilities. In addition to the requirements of subsection (c) of this section, the permit application shall include the following items, as applicable to the specific facility that is the subject of the permit application:

(1) In the case of the installation of a new electric power, communications, cable television service, video service or natural gas distribution system, evidence that any "Certificate of Public Convenience and Necessity" or other regulatory authorization that the applicant is required by law to obtain, or that the applicant has elected to obtain, has been issued by the ICC or other jurisdictional authority;

(2) In the case of natural gas systems, state the proposed pipe size, design, construction class, and operating pressures;

(3) In the case of water lines, indicate that all requirements of the Illinois Environmental Protection Agency, Division of Public Water Supplies, and the City have been satisfied;

~~(4) In the case of sewer line installations, state whether the applicant intends to install fiber optic cables in the City's sewer system, and indicate that the land and water pollution requirements of the Illinois Environmental Protection Agency, Division of Water Pollution Control and the City, have been satisfied; or~~

~~(5) In the case of petroleum products pipelines, state the type or types of petroleum products, pipe size, maximum working pressure, and the design standard to be followed.~~

(e) Applicant's Duty to Update Information. Throughout the entire permit application review period and the construction period authorized by the permit, any amendments to information contained in a permit application shall be submitted by the applicant in writing to the City within thirty (30) days after the change necessitating the amendment.

(f) Application Fees. Unless otherwise provided by franchise, license, or similar agreement, applications for permits pursuant to this article shall be accompanied by a fee in the amount of two hundred dollars (\$200), which amount may be amended from time to time by action of the City Council. No application fee is required to be paid by any electricity utility that is paying the municipal electricity infrastructure maintenance fee pursuant to the Electricity Infrastructure Maintenance Fee Act. No application fee is required to be paid by any telecommunications utility that is paying the municipal telecommunications tax pursuant to the Simplified Municipal Telecommunications Tax Act.

(Ord. No. 3044-2020; Sec. 6-1103 repealed; new Sec. 6-1103 enacted; 12/15/20)

SEC. 6-1104. ACTION ON PERMIT APPLICATIONS.

(a) Application Deadlines. Applications are deemed complete if the City does not notify the applicant otherwise within thirty (30) days of receipt of the application.

(b) City Review of Permit Applications. Completed permit applications, containing all required documentation, shall be examined by the director of public worksengineering on a nondiscriminatory basis. If the application does not conform to the requirements of applicable ordinances, codes, laws, rules, or regulations that concern public safety, the director of public worksengineering shall notify the applicant of the basis for a denial, including specific code provisions upon which the denial is based. The applicant may cure the deficiencies and resubmit a revised application without paying additional application fees.

If the director of public worksengineering is satisfied that the proposed work conforms to the requirements of this article and applicable ordinances, codes, laws, rules, and regulations, the director of public worksengineering shall issue a permit therefor as soon as practicable. In all instances, it shall be the duty of the applicant to demonstrate, to the satisfaction of the director of public worksengineering, that the construction proposed under the application shall be in full compliance with the requirements of this article.

(c) Additional City Review of Applications of Telecommunications Retailers.

(1) Pursuant to Section 4 of the Telephone Company Act, 220 ILCS 65/4, a telecommunications retailer shall notify the City that it intends to commence work governed by this article for facilities for the provision of telecommunications services. Such notice shall consist of plans, specifications, and other documentation sufficient to demonstrate the purpose and intent of the facilities, and shall be provided by the telecommunications retailer to the City not less than ten (10) days prior to the commencement of work requiring no excavation and not less than thirty (30) days prior to the commencement of work requiring excavation. The director of public-worksengineering shall specify the portion of the right-of-way upon which the facility may be placed, used and constructed.

(2) In the event that the director of public-worksengineering fails to provide such specification of location to the telecommunications retailer within either (i) ten (10) days after service of notice to the City by the telecommunications retailer in the case of work not involving excavation for new construction or (ii) twenty-five (25) days after service of notice by the telecommunications retailer in the case of work involving excavation for new construction, the telecommunications retailer may commence work without obtaining a permit under this article.

(3) Upon the provision of such specification by the City, where a permit is required for work pursuant to Section 6-1103 of this article the telecommunications retailer shall submit to the City an application for a permit and any and all plans, specifications and documentation available regarding the facility to be constructed. Such application shall be subject to the requirements of subsection (a) of this section.

(d) Additional City Review of Applications of Holders of State Authorization Under the Cable and Video Competition Law of 2007. Applications by a utility that is a holder of a state-issued authorization under the Cable and Video Competition Law of 2007 shall be deemed granted forty-five (45) days after submission to the City, unless otherwise acted upon by the City, provided the holder has complied with applicable City codes, ordinances, and regulations.

(Ord. No. 3044-2020; Sec. 6-1104 repealed; new Sec. 6-1104 enacted; 12/15/20)

SEC. 6-1105. EFFECT OF PERMIT.

(a) Authority Granted; No Property Right or Other Interest Created. A permit from the City authorizes a permittee to undertake only certain activities in accordance with this article on City rights-of-way, and does not create a property right or grant authority to the permittee to impinge upon the rights of others who may have an interest in the rights-of-way.

(b) Duration. No permit issued to a utility under this chapter shall be valid for a period longer than six (6) months unless construction is actually begun within that period and is thereafter diligently pursued to completion.

(c) ~~Pre-construction Meeting Required. At the discretion of the director of engineering, a pre-construction meeting may be required.~~ No construction shall begin pursuant to a permit issued under this chapter prior to attendance by the permittee and all major contractors and subcontractors who will perform any work under the permit at a pre-construction meeting. The pre-construction meeting shall be held at a date, time and place designated by the City with such City representatives in attendance as the City deems necessary. The meeting shall be for the purpose of reviewing the work under the permit, and reviewing special considerations necessary in the areas where work will occur, including, without limitation, presence or absence of other utility facilities in the area and their locations, procedures to avoid conflicts with or disruption of other facilities, use of rights-of-way by the public during construction, and access and egress by adjacent property owners.

(d) Compliance with All Laws Required. The issuance of a permit by the City does not excuse the permittee from complying with other requirements of the City and applicable statutes, laws, ordinances, rules, and regulations.

(Ord. No. 3044-2020; Sec. 6-1105 repealed; new Sec. 6-1105 enacted; 12/15/20)

SEC. 6-1106. REVISED PERMIT DRAWINGS.

In the event that the actual locations of any facilities deviate in any material respect from the locations identified in the plans, drawings and specifications submitted with the permit application, the permittee shall submit a revised set of drawings or plans to the City within ninety (90) days after the completion of the permitted work. The revised drawings or plans shall specifically identify where the locations of the actual facilities deviate from the locations approved in the permit. If any deviation from the permit also deviates from the requirements of this article, it shall be treated as a request for variance in accordance with Section 6-11204 of this article. If the City denies the request for a variance, then the permittee shall either remove the facility from the right-of-way or modify the facility so that it conforms to the permit and submit revised drawings or plans therefor.

(Ord. No. 3044-2020; Sec. 6-1106 repealed; new Sec. 6-1106 enacted; 12/15/20)

SEC. 6-1107. INSURANCE.

(a) Required Coverages and Limits. Unless otherwise provided by franchise, license, or similar agreement, each wireless provider or utility occupying right-of-way or constructing any facility in the right-of-way shall secure and maintain the following liability insurance policies insuring the utility as named insured and naming the City, and its elected and appointed officers, officials, agents, and employees as additional insureds on the policies listed in paragraph (1) below:

(1) Commercial general liability insurance, including premises-operations, explosion, collapse, and underground hazard (commonly referred to as "X," "C," and "U" coverages) and products-completed operations coverage with limits not less than:

- a. One million dollars (\$1,000,000) for bodily injury or death to each person;

- b. One million dollars (\$1,000,000) for property damage resulting from any one accident;
- c. One million dollars (\$1,000,000) for all other types of liability;
- d. Two million dollars (\$2,000,000) aggregate;
- e. Wireless providers must include the City as an additional insured on the commercial general liability policy;

(2) Automobile liability for owned, non-owned and hired vehicles with a combined single limit of one million dollars (\$1,000,000) for personal injury and property damage for each accident;

(3) Worker's compensation with statutory limits; and

(4) Property insurance for replacement costs against all risks; and

(5) Employer's liability insurance with limits of not less than one million dollars (\$1,000,000) per employee and per accident.

If the wireless provider or utility is not providing such insurance to protect the contractors and subcontractors performing the work, then such contractors and subcontractors shall comply with this section.

(b) Excess or Umbrella Policies. The coverages required by this section may be in any combination of primary, excess, and umbrella policies. Any excess or umbrella policy must provide excess coverage over underlying insurance on a following-form basis such that when any loss covered by the primary policy exceeds the limits under the primary policy, the excess or umbrella policy becomes effective to cover such loss.

(c) Copies Required. The wireless provider or utility shall provide copies of any of the policies required by this section to the City within ten (10) days following receipt of a written request therefor from the City.

(d) Maintenance and Renewal of Required Coverages. The insurance policies required by this section shall contain the following endorsement:

"It is hereby understood and agreed that this policy may not be canceled nor the intention not to renew be stated until ten (10) days after receipt by the City, by registered mail or certified mail, return receipt requested, of a written notice addressed to the City Administrator of such intent to cancel or not to renew."

Within ten (10) days after receipt by the City of said notice, and in no event later than ten (10) days prior to said cancellation, the utility shall obtain and furnish to the City evidence of replacement insurance policies meeting the requirements of this Section.

(e) Self-Insurance. A wireless provider or utility may self-insure all or a portion of the insurance coverage and limit requirements required by subsection (a) of this section. A wireless provider or utility that self-insures is not required, to the extent of such self-insurance, to comply with the requirement for the naming of additional insureds under subsection (a), or the requirements of subsections (b), (c) and (d) of this section. A wireless provider or utility that elects to self-insure shall provide to the City evidence sufficient to demonstrate its financial ability to self-insure the insurance coverage and limit requirements required under subsection (a) of this section, such as evidence that the utility is a "private self insurer" under the Workers Compensation Act.

(f) Effect of Insurance and Self-Insurance on Wireless Provider or Utility's Liability. The legal liability of the wireless provider or utility to the City and any person for any of the matters that are the subject of the insurance policies or self-insurance required by this section shall not be limited by such insurance policies or self-insurance or by the recovery of any amounts thereunder.

(g) Insurance Companies. All insurance provided pursuant to this section shall be effected under valid and enforceable policies, issued by insurers legally able to conduct business with the licensee in the State of Illinois.

(Ord. No. 3044-2020; Sec. 6-1107 repealed; new Sec. 6-1107 enacted; 12/15/20)

SEC. 6-1108. INDEMNIFICATION.

By occupying or constructing facilities in the right-of-way, a wireless provider or utility shall be deemed to agree to defend, indemnify and hold the City and its elected and appointed officials and officers, employees, agents and representatives harmless from and against any and all injuries, claims, demands, judgments, damages, losses and expenses, including reasonable attorney's fees and costs of suit or defense, arising out of, resulting from or alleged to arise out of or result from the negligent, careless or wrongful acts, omissions, failures to act or misconduct of the utility or its affiliates, officers, employees, agents, contractors or subcontractors in the construction of facilities or occupancy of the rights-of-way, and in providing or offering service over the facilities, whether such acts or omissions are authorized, allowed or prohibited by this article or by a franchise, license, or similar agreement; provided, however, that the wireless provider or utility's indemnity obligations hereunder shall not apply to any injuries, claims, demands, judgments, damages, losses or expenses arising out of or resulting from the negligence, misconduct or breach of this article by the City, its officials, officers, employees, agents or representatives.

(Ord. No. 3044-2020; Sec. 6-1108 repealed; new Sec. 6-1108 enacted; 12/15/20)

SEC. 6-1109. SECURITY.

(a) Purpose. The permittee shall establish a Security Fund in a form and in an amount as set forth in this section. The

Security Fund shall be continuously maintained in accordance with this section at the permittee's sole cost and expense until the completion of the work authorized under the permit. The Security Fund shall serve as security for:

- (1) The faithful performance by the permittee of all the requirements of this article;
- (2) Any expenditure, damage, or loss incurred by the City occasioned by the permittee's failure to comply with any codes, rules, regulations, orders, permits and other directives of the City issued pursuant to this article; and
- (3) The payment by permittee of all liens and all damages, claims, costs, or expenses that the City may pay or incur by reason of any action or non-performance by permittee in violation of this article including, without limitation, any damage to public property or restoration work the permittee is required by this article to perform that the City must perform itself or have completed as a consequence solely of the permittee's failure to perform or complete, and all other payments due the City from the permittee pursuant to this article or any other applicable law.

(b) Form. The permittee shall provide the Security Fund to the City in the form, at the permittee's election, of cash, a surety bond in a form acceptable to the City, or an unconditional letter of credit in a form acceptable to the City. Said forms are attached to this article as Appendices 1 and 2. Any surety bond or letter of credit provided pursuant to this subsection shall, at a minimum:

- (1) Provide that it will not be canceled without prior notice to the City and the permittee;
- (2) Not require the consent of the permittee prior to the collection by the City of any amounts covered by it; and
- (3) Shall provide a location convenient to the City and within the State of Illinois at which it can be drawn.

(c) Amount. The dollar amount of the Security Fund shall be \$2,500.00 or 10% of the total cost of the project. The dollar amount of the Security Fund is intended to be sufficient to provide for the reasonably estimated cost to restore the right-of-way to at least as good a condition as that existing prior to the construction under the permit, as determined by the director of public works engineering, and may also include reasonable, directly related costs that the City estimates are likely to be incurred if the permittee fails to perform such restoration. Where the construction of facilities proposed under the permit will be performed in phases in multiple locations in the City, with each phase consisting of construction of facilities in one location or a related group of locations, and where construction in another phase will not be undertaken prior to substantial completion of restoration in the previous phase or phases, the director of public works engineering may, in the exercise of sound discretion, allow the permittee to post a single amount of security which shall be applicable to each phase of the construction under the permit. The amount of the Security Fund for phased construction shall be equal to the greatest amount that would have been required under the provisions of this subsection (c) for any single phase.

(d) Withdrawals. The City, upon fourteen (14) days' advance written notice clearly stating the reason for, and its intention to exercise withdrawal rights under this subsection, may withdraw an amount from the Security Fund, provided that the permittee has not reimbursed the City for such amount within the fourteen (14) day notice period. Withdrawals may be made if the permittee:

- (1) Fails to make any payment required to be made by the permittee hereunder;
- (2) Fails to pay any liens relating to the facilities that are due and unpaid;
- (3) Fails to reimburse the City for any damages, claims, costs or expenses which the City has been compelled to pay or incur by reason of any action or non-performance by the permittee; or
- (4) Fails to comply with any provision of this article that the City determines can be remedied by an expenditure of an amount in the Security Fund.

(e) Replenishment. Within fourteen (14) days after receipt of written notice from the City that any amount has been withdrawn from the Security Fund, the permittee shall restore the Security Fund to the amount specified in subsection (c) of this section.

(f) Interest. The permittee may request that any and all interest accrued on the amount in the Security Fund be returned to the permittee by the City, upon written request for said withdrawal to the City, provided that any such withdrawal does not reduce the Security Fund below the minimum balance required in subsection (c) of this section.

(g) Closing and Return of Security Fund. Upon satisfactory completion of the work authorized under the permit, including removal of all signs and restoration of the work area, the permittee shall be entitled to the return of the Security Fund, or such portion thereof as remains on deposit, within a reasonable time after account is taken for all offsets necessary to compensate the City for failure by the permittee to comply with any provisions of this article or other applicable law. In the event of any revocation of the permit, the Security Fund, and any and all accrued interest therein, shall become the property of the City to the extent necessary to cover any reasonable costs, loss or damage incurred by the City as a result of said revocation, provided that any amounts in excess of said costs, loss or damage shall be refunded to the permittee.

(h) Rights Not Limited. The rights reserved to the City with respect to the Security Fund are in addition to all other rights of the City, whether reserved by this article or otherwise authorized by law, and no action, proceeding or exercise of right with respect to said Security Fund shall affect any other right the City may have. Notwithstanding the foregoing, the City shall not be entitled to a double monetary recovery with respect to any of its rights which may be infringed or otherwise violated. Upon request, the City reserves the right to waive the security fund requirement.

SEC. 6-1110. PERMIT SUSPENSION AND REVOCATION.

(a) City Right to Revoke Permit. The City may revoke or suspend a permit issued pursuant to this article for one (1) or more of the following reasons:

- (1) Fraudulent, false, misrepresenting, or materially incomplete statements in the permit application;
- (2) Non-compliance with this article;
- (3) Permittee's physical presence or presence of permittee's facilities on, over, above, along, upon, under, across, or within the rights-of-way presents a direct or imminent threat to the public health, safety, or welfare; or
- (4) Permittee's failure to construct the facilities substantially in accordance with the permit and approved plans.

(b) Notice of Revocation or Suspension. The City shall send written notice of its intent to revoke or suspend a permit issued pursuant to this article stating the reason or reasons for the revocation or suspension and the alternatives available to permittee under this Section 6-1110.

(c) Permittee Alternatives Upon Receipt of Notice of Revocation or Suspension. Upon receipt of a written notice of revocation or suspension from the City, the permittee shall have the following options:

- (1) Immediately provide the City with evidence that no cause exists for the revocation or suspension;
- (2) Immediately correct, to the satisfaction of the City, the deficiencies stated in the written notice, providing written proof of such correction to the City within five (5) working days after receipt of the written notice of revocation; or
- (3) Immediately remove the facilities located on, over, above, along, upon, under, across, or within the rights-of-way and restore the rights-of-way to the satisfaction of the City providing written proof of such removal to the City within ten (10) days after receipt of the written notice of revocation.

The City may, in its discretion, for good cause shown, extend the time periods provided in this subsection.

(d) Stop Work Order. In addition to the issuance of a notice of revocation or suspension, the City may issue a stop work order immediately upon discovery of any of the reasons for revocation set forth within subsection (a) of this section.

(e) Failure or Refusal of the Permittee to Comply. If the permittee fails to comply with the provisions of subsection (c) of this section, the City or its designee may, at the option of the City: (1) correct the deficiencies; (2) upon not less than twenty (20) days' notice to the permittee, remove the subject facilities or equipment; or (3) after not less than thirty (30) days' notice to the permittee of failure to cure the non-compliance, deem them abandoned and property of the City. The permittee shall be liable in all events to the City for all costs of removal.

(Ord. No. 3044-2020; Sec. 6-1110 repealed; new Sec. 6-1110 enacted; 12/15/20)

SEC. 6-1111. UTILITY CHANGE OF OWNERSHIP OR OWNER'S IDENTITY OR LEGAL STATUS.

(a) Notification of Change. A utility shall notify the City no less than thirty (30) days prior to the transfer of ownership of any facility in the right-of-way or change in identity of the utility. The new owner of the utility or the facility shall have all the obligations and privileges enjoyed by the former owner under the permit, if any, and applicable laws, ordinances, rules and regulations, including this article, with respect to the work and facilities in the right-of-way.

(b) Notification of Change - Wireless Providers. Wireless providers are required to provide the City with written notice of its intent to sell or transfer small wireless facilities. Such notice must include the name and contact information of the new wireless provider.

(c) Amended Permit. A new owner shall request that any current permit be amended to show current ownership. If the new owner fails to have a new or amended permit issued in its name, the new owner shall be presumed to have accepted, and agreed to be bound by, the terms and conditions of the permit if the new owner uses the facility or allows it to remain on the City's right-of-way.

(d) Insurance and Bonding. All required insurance coverage or bonding must be changed to reflect the name of the new owner upon transfer.

(Ord. No. 3044-2020; Sec. 6-1111 repealed; new Sec. 6-1111 enacted; 12/15/20)

SEC. 6-1112. GENERAL CONSTRUCTION STANDARDS.

(a) Standards and Principles. All construction in the right-of-way shall be consistent with applicable ordinances (including, but not limited to, the City of Moline supplemental specifications), codes, laws, rules and regulations, and commonly recognized and accepted traffic control and construction principles, sound engineering judgment and, where applicable, the principles and standards set forth in the following IDOT publications, as amended from time to time:

- (1) Standard Specifications for Road and Bridge Construction;
- (2) Supplemental Specifications and Recurring Special Provisions;
- (3) Highway Design Manual;
- (4) Highway Standards Manual;

- (5) Standard Specifications for Traffic Control Items;
- (6) Illinois Manual on Uniform Traffic Control Devices (92 Ill. Adm. Code § 545);
- (7) Flagger's Handbook; and
- (8) Work Site Protection Manual for Daylight Maintenance Operations.

(b) Interpretation of Municipal Standards and Principles. If a discrepancy exists between or among differing principles and standards required by this article, the director of ~~public works engineering~~ shall determine, in the exercise of sound engineering judgment, which principles apply and such decision shall be final. If requested, the director of ~~public works engineering~~ shall state which standard or principle will apply to the construction, maintenance, or operation of a facility in the future.

(Ord. No. 3044-2020; Sec. 6-1112 repealed; new Sec. 6-1112 enacted; 12/15/20)

SEC. 6-1113. PUBLIC SAFETY AND TRAFFIC CONTROL.

(a) Public Safety. The placement of any antenna, wireless facility or small wireless facilities located in the City right-of-way may not interfere with the frequencies used by public safety agencies for public safety communications. Unacceptable interference will be determined in accordance with industry standards and the Federal Communications Commission's regulations addressing unacceptable interference to public safety spectrum. If an antenna, wireless facility or small wireless facility causes such interference, the owner must take all steps necessary to correct and eliminate the interference at its own costs. The City may terminate a permit for any antenna, wireless facility or small wireless facility based on such interference if the interference is not corrected.

The City may reserve space on its utility pole for future public utility or safety uses or for the City's electric utility uses. This reservation of space may preclude the collocation of a small wireless facility where the City determines that the utility pole cannot accommodate both uses.

(b) Minimum Requirements. The City's minimum requirements for traffic protection are contained in IDOT's Illinois Manual on Uniform Traffic Control Devices and this Code.

(c) Warning Signs, Protective Devices, and Flaggers. The wireless provider or utility is responsible for providing and installing warning signs, protective devices and flaggers, when necessary, meeting applicable federal, state, and local requirements for protection of the public and the utility's workers when performing any work on the rights-of-way.

(d) Interference with Traffic. All work shall be phased so that there is minimum interference with pedestrian and vehicular traffic. ~~The city may require any street or lane closures to be restricted to non-peak hour travel times.~~

(e) Notice When Access is Blocked. At least forty-eight (48) hours prior to beginning work that will partially or completely block access to any residence, business or institution, the wireless provider or utility shall notify the resident, business or institution of the approximate beginning time and duration of such work; provided, however, that in cases involving emergency repairs pursuant to Section 6-1119 of this article, the wireless provider or utility shall provide such notice as is practicable under the circumstances.

(f) Compliance. The wireless provider or utility shall take immediate action to correct any deficiencies in traffic protection requirements that are brought to its attention by the City.

(Ord. No. 3044-2020; Sec. 6-1113 repealed; new Sec. 6-1113 enacted; 12/15/20)

SEC. 6-1114. LOCATION OF FACILITIES.

(a) General Requirements. In addition to location requirements applicable to specific types of utility facilities, all utility facilities, regardless of type, shall be subject to the general location requirements of this subsection.

(1) No Interference with City Facilities. No utility facilities shall be placed in any location if the director of ~~public works engineering~~ determines that the proposed location will require the relocation or displacement of any of the City's utility facilities or will otherwise interfere with the operation or maintenance of any of the City's utility facilities.

(2) Minimum Interference and Impact. The proposed location shall cause only the minimum possible interference with the use of the right-of-way and shall cause only the minimum possible impact upon, and interference with the rights and reasonable convenience of property owners who adjoin said right-of-way. ~~Facilities shall be placed underground whenever feasible.~~ For communication service providers proposing to install new facilities, no new poles shall be allowed to be installed without the City's express prior consent, except with respect to small wireless facilities to the extent required by law. Additionally, the provisions of Sec. 28-6100 apply where applicable.

(3) No Interference with Travel. No utility facility shall be placed in any location that interferes with the usual travel on such right-of-way.

(4) No Limitations on Visibility. No utility facility shall be placed in any location so as to limit visibility of or by users of the right-of-way.

(5) Size of Utility Facilities. The proposed installation shall use the smallest suitable vaults, boxes, equipment enclosures, power pedestals, and/or cabinets then in use by the facility owner, regardless of location, for the particular application.

(6) Screening. Screening shall be required for all units equal to or greater than four (4) feet in height as measured from

existing grade, with the exception of street light and traffic signal controller cabinets.

a. Where screening is required, it shall be provided in accordance with Chapter 35, article V, Division 2, Landscape and Buffer yard Standards.

b. Equipment shall be located so that its visual impact is minimized. Equipment shall not be permitted to be located within the parkway area between the public sidewalk and street curb, unless another feasible location is not available within or outside of the right-of-way.

c. The equipment shall be positioned to maximize the effectiveness of the screening, including locating the equipment so that the access panel is located on the side that is least visible; however, boxes shall not be placed to impede views for pedestrians, cyclists, or drivers.

d. Screening requirements may be waived by the director of public works engineering where installation of screening may have negative impacts on the public safety, such as impeding views for pedestrians, cyclists, and drivers on the adjacent roadways, sidewalks, bikepaths, and driveways, or if such installation would be unduly burdensome.

e. All screening must be maintained by the permittee.

(7) The City is not required to install or maintain any specific utility pole or to continue to install or maintain utility poles in any location if it makes a non-discriminatory decision to eliminate above-ground utility poles of a particular type. For City utility poles with collocated small wireless facilities in place when the City makes a decision to eliminate above-ground utility poles, the City will, at its discretion, either maintain the utility pole or install and maintain an alternative utility pole for the collocation of the small wireless facility, or offer to sell the utility pole to the wireless provider.

(b) Parallel Facilities Located Within Highways.

(1) Overhead Parallel Facilities. An overhead parallel facility may be located within the right-of-way lines of a highway only if:

a. Lines are located as near as practicable to the right-of-way line and as nearly parallel to the right-of-way line as reasonable pole alignment will permit;

b. Where pavement is curbed, poles are as remote as practicable from the curb with a minimum distance of two (2) feet (0.6 m) behind the face of the curb, where available;

c. Where pavement is uncurbed, poles are as remote from pavement edge as practicable with minimum distance of four (4) feet (1.2 m) outside the outer shoulder line of the roadway and are not within the clear zone;

d. No pole is located in the ditch line of a highway; and

e. Any ground-mounted appurtenance is located within one (1) foot (0.3 m) of the right-of-way line or as near as possible to the right-of-way line.

(2) Underground Parallel Facilities. An underground parallel facility may be located within the right-of-way lines of a highway only if:

a. The facility is located as near the right-of-way line as practicable and not more than eight (8) feet (2.4 m) from and parallel to the right-of-way line;

b. A new facility may be located under the paved portion of a highway only if other locations are impracticable or inconsistent with sound engineering judgment (e.g., a new cable may be installed in existing conduit without disrupting the pavement); and

c. In the case of an underground power or communications line, the facility shall be located as near the right-of-way line as practicable and not more than five (5) feet (1.5 m) from the right-of-way line and any above-grounded appurtenance shall be located within one (1) foot (0.3 m) of the right-of-way line or as near as practicable.

(c) Facilities Crossing Highways.

(1) No Future Disruption. The construction and design of crossing facilities installed between the ditch lines or curb lines of City highways may require the incorporation of materials and protections (such as encasement or additional cover) to avoid settlement or future repairs to the roadbed resulting from the installation of such crossing facilities.

(2) Cattle Passes, Culverts, or Drainage Facilities. Crossing facilities shall not be located in cattle passes, culverts, or drainage facilities.

(3) Ninety (90) Degree Crossing Required. Crossing facilities shall cross at or as near to a ninety (90) degree angle to the centerline as practicable.

(4) Overhead Power or Communication Facility. An overhead power or communication facility may cross a highway only if:

a. It has a minimum vertical line clearance as required by ICC's rules entitled, "Construction of Electric Power and Communication Lines" (83 Ill. Adm. Code 305);

b. Poles are located within one (1) foot (0.3 m) of the right-of-way line of the highway and outside of the clear zone; and

c. Overhead crossings at major intersections are avoided.

(5) Underground Power or Communication Facility. An underground power or communication facility may cross a highway only if:

- a. The design materials and construction methods will provide maximum maintenance-free service life; and
- b. Capacity for the utility's foreseeable future expansion needs is provided in the initial installation.

(6) Markers. The City may require the utility to provide a marker at each right-of-way line where an underground facility other than a power or communication facility crosses a highway. Each marker shall identify the type of facility, the utility, and an emergency phone number. Markers may also be eliminated as provided in current federal regulations. (49 C.F.R. §192.707 (1989)).

(d) Facilities to be Located Within Particular Rights-of-Way. The City may require that facilities be located within particular rights-of-way that are not highways, rather than within particular highways.

(e) Freestanding Facilities.

(1) The City may restrict the location and size of any monopole, utility pole or other freestanding facility located within a right-of-way. No freestanding facility located within a right-of-way may be constructed or modified so that the height of the free standing facility is higher by more than ten (10) feet or more than ten (10) percent, whichever is greater, than any other existing, freestanding facility located within the right-of-way within three hundred (300) feet of the proposed facility, measured along the center line of the respective right-of-way. Where there are no other freestanding facilities located within three hundred (300) feet of the proposed facility, the maximum height of the freestanding facility shall be forty-five (45) feet.

(2) The City may require any monopole, utility pole or other freestanding facility located within a right-of-way to be screened from view. If at any time the City determines that existing wires, cables or other facilities of public utilities be changed from an overhead to an underground installation, the owner or operator of a facility shall, at no expense to the owner or operator, convert its system in that location to an underground installation unless the owners or operator's franchise agreement, tariff or applicable state or federal law provides otherwise, if overhead transmission facilities cannot be converted to underground installation then relocation costs will be borne by the responsible Utility.

(3) If all existing monopoles, utility poles and other aboveground facilities are located on one (1) side of the right-of-way, all new monopoles, utility poles and other freestanding facilities shall be located on the same side of the right-of-way as the existing aboveground facilities. If there exist above ground facilities on both sides, new freestanding facilities shall be located on the side where the above ground facilities most closely match the scale of the new freestanding facility.

(f) Facilities Installed Above Ground. Above ground facilities may be installed only if:

(1) ~~No other existing facilities in the area are located underground~~No existing electrical service provider in the corridor is located underground; and

~~(2) New underground installation is not technically feasible; and~~

~~(3)~~(2) The proposed installation will be made at a location, and will employ suitable design and materials, to provide the greatest protection of aesthetic qualities of the area being traversed without adversely affecting safety. Suitable designs include, but are not limited to, self-supporting armless, single-pole construction with vertical configuration of conductors and cable. Existing utility poles and municipally-owned infrastructure shall be used wherever practicable; the installation of additional utility poles or monopoles is strongly discouraged.

(g) Facility Attachments to Bridges or Roadway Structures.

(1) Facilities may be installed as attachments to bridges or roadway structures only where the utility has demonstrated that all other means of accommodating the facility are not practicable. Other means shall include, but are not limited to, underground, underwater, independent poles, cable supports and tower supports, all of which are completely separated from the bridge or roadway structure. Facilities transmitting commodities that are volatile, flammable, corrosive, or energized, especially those under significant pressure or potential, present high degrees of risk and such installations are not permitted.

(2) A utility shall include in its request to accommodate a facility installation on a bridge or roadway structure supporting data demonstrating the impracticability of alternate routing. Approval or disapproval of an application for facility attachment to a bridge or roadway structure will be based upon the following considerations:

- a. The type, volume, pressure or voltage of the commodity to be transmitted and an evaluation of the resulting risk to persons and property in the event of damage to or failure of the facility;
- b. The type, length, value, and relative importance of the highway structure in the transportation system;
- c. The alternative routings available to the utility and their comparative practicability;
- d. The proposed method of attachment;
- e. The ability of the structure to bear the increased load of the proposed facility;
- f. The degree of interference with bridge maintenance and painting;
- g. The effect on the visual quality of the structure; and
- h. The public benefit expected from the utility service as compared to the risk involved.

(h) Appearance Standards.

(1) The City may prohibit the installation of facilities in particular locations in order to preserve visual quality.

(2) A facility may be constructed only if its construction does not require extensive removal or alteration of trees or terrain features visible to the right-of-way user or to adjacent residents and property owners, and if it does not impair the aesthetic quality of the lands being traversed.

(Ord. No. 3044-2020; Sec. 6-1114 repealed; new Sec. 6-1114 enacted; 12/15/20)

SEC. 6-1115. CONSTRUCTION METHODS AND MATERIALS.

(a) Standards and Requirements for Particular Types of Construction Methods.

(1) Boring or Jacking.

a. Pits and Shoring. Boring or jacking under rights-of-way shall be accomplished from pits located at a minimum distance specified by the director of public-worksengineering from the edge of the pavement. Pits for boring or jacking shall be excavated no more than forty- eight (48) hours in advance of boring or jacking operations and backfilled within forty-eight (48) hours after boring or jacking operations are completed. While pits are open, they shall be clearly marked and protected by barricades. Shoring shall be designed, erected, supported, braced, and maintained so that it will safely support all vertical and lateral loads that may be imposed upon it during the boring or jacking operation.

b. Wet Boring or Jetting. Wet boring or jetting shall not be permitted under the roadway.

c. Borings with Diameters Greater Than Six (6) Inches. Borings over six (6) inches (0.15 m) in diameter shall be accomplished with an auger and following pipe, and the diameter of the auger shall not exceed the outside diameter of the following pipe by more than one (1) inch (25 mm).

d. Borings with Diameters Six (6) Inches or Less. Borings of six (6) inches or less in diameter may be accomplished by either jacking, guided with auger, or auger and following pipe method.

e. Tree Preservation. Any facility located within the drip line of any tree designated by the City to be preserved or protected shall be bored under or around the root system.

(2) Trenching. Trenching for facility installation, repair, or maintenance on rights-of-way shall be done in accord with the applicable portions of Section 603 of IDOT's "Standard Specifications for Road and Bridge Construction" and the latest edition of the City of Moline Supplemental Specifications.

a. Length. The length of open trench shall be kept to the practicable minimum consistent with requirements for pipe-line testing. Only one-half of any intersection may have an open trench at any time unless special permission is obtained from the director of public-worksengineering.

b. Open Trench and Excavated Material. Open trench and windrowed excavated material shall be protected as required by Chapter 6 of the Illinois Manual on Uniform Traffic Control Devices. Where practicable, the excavated material shall be deposited between the roadway and the trench as added protection. Excavated material shall not be allowed to remain on the paved portion of the roadway. Where right-of-way width does not allow for windrowing excavated material off the paved portion of the roadway, excavated material shall be hauled to an off-road location.

c. Drip Line of Trees. The utility shall not trench within the drip line of any tree designated by the City to be preserved.

(3) Backfilling.

a. Any pit, trench, or excavation created during the installation of facilities shall be backfilled for its full width, depth, and length using methods and materials in accordance with IDOT's "Standard Specifications for Road and Bridge Construction." When excavated material is hauled away or is unsuitable for backfill, suitable granular backfill shall be used.

b. For a period of three (3) years from the date construction of a facility is completed, the utility shall be responsible to remove and restore any backfilled area that has settled due to construction of the facility. If so ordered by the director of public-worksengineering, the utility, at its expense, shall remove any pavement and backfill material to the top of the installed facility, place and properly compact new backfill material, and restore new pavement, sidewalk, curbs, and driveways to the proper grades, as determined by the director of public-worksengineering.

(4) Pavement Cuts. Pavement cuts for facility installation or repair shall be permitted on a highway only if that portion of the highway is closed to traffic. If a variance to the limitation set forth in this paragraph (4) is permitted under Section 6-1121, the following requirements shall apply:

a. Any excavation under pavements shall be backfilled and compacted as soon as practicable with granular material of CA-6 or CA-10 gradation, as designated by the director of public-worksengineering.

b. Restoration of pavement, in kind, shall be accomplished as soon as practicable, and temporary repair with bituminous mixture shall be provided immediately. Any subsequent failure of either the temporary repair or the restoration shall be rebuilt upon notification by the City.

c. All saw cuts shall be full depth.

d. For all rights-of-way which have been reconstructed with a concrete surface/base in the last seven (7) years, or

resurfaced in the last three (3) years, permits shall not be issued unless such work is determined to be an emergency repair or other work considered necessary and unforeseen before the time of the reconstruction or unless a pavement cut is necessary for a J.U.L.I.E. locate.

e. For PCC pavement restoration, pavement shall be replaced in full panels.

(5) Encasement.

a. Casing pipe shall be designed to withstand the load of the highway and any other superimposed loads. The casing shall be continuous either by one-piece fabrication or by welding or jointed installation approved by the City.

b. The venting, if any, of any encasement shall extend within one (1) foot (0.3 m) of the right-of-way line. No above-ground vent pipes shall be located in the area established as clear zone for that particular section of the highway.

c. In the case of water main or service crossing, encasement shall be furnished between bore pits unless continuous pipe or City approved jointed pipe is used under the roadway. Casing may be omitted only if pipe is installed prior to highway construction and carrier pipe is continuous or mechanical joints are of a type approved by the City. Bell and spigot type pipe shall be encased regardless of installation method.

d. In the case of gas pipelines of sixty (60) psig or less, encasement may be eliminated.

e. In the case of gas pipelines or petroleum products pipelines with installations of more than sixty (60) psig, encasement may be eliminated only if: (1) extra heavy pipe is used that precludes future maintenance or repair and (2) cathodic protection of the pipe is provided;

f. If encasement is eliminated for a gas or petroleum products pipeline, the facility shall be located so as to provide that construction does not disrupt the right-of-way.

(6) Minimum Cover of Underground Facilities. Cover shall be provided and maintained at least in the amount specified in the following table for minimum cover for the type of facility:

TYPE OF FACILITY	MINIMUM COVER
Electric Lines	30 Inches (0.8 m)
Communication, Cable or Video Service Lines	18 to 24 Inches (0.6 m, as determined by City)
Gas or Petroleum Products	30 Inches (0.8 m)
Water Line	Sufficient Cover to Provide Freeze Protection
Sanitary Sewer, Storm Sewer, or Drainage Line	Sufficient Cover to Provide Freeze Protection

(b) Standards and Requirements for Particular Types of Facilities.

(1) Electric Power or Communication Lines.

a. Code Compliance. Electric power or communications facilities within City rights-of-way shall be constructed, operated, and maintained in conformity with the provisions of 83 Ill. Adm. Code Part 305 (formerly General Order 160 of the Illinois Commerce Commission) entitled "Rules for Construction of Electric Power and Communications Lines," and the National Electrical Safety Code.

b. Overhead Facilities. Overhead power or communication facilities shall use single pole construction and, where practicable, joint use of poles shall be used. Utilities shall make every reasonable effort to design the installation so guys and braces will not be needed. Variances may be allowed if there is no feasible alternative and if guy wires are equipped with guy guards for maximum visibility.

c. Underground Facilities. (1) Cable may be installed by trenching or plowing, provided that special consideration is given to boring in order to minimize damage when crossing improved entrances and side roads. (2) If a crossing is installed by boring or jacking, encasement shall be provided between jacking or bore pits. Encasement may be eliminated only if: (a) the crossing is installed by the use of "moles," "whip augers," or other approved method which compress the earth to make the opening for cable installation or (b) the installation is by the open trench method which is only permitted prior to roadway construction. (3) Cable shall be grounded in accordance with the National Electrical Safety Code.

d. Burial of Drops. All temporary service drops placed between November 1 of the prior year and March 15 of the current year, also known as snowdrops, shall be buried by May 31 of the current year, weather permitting, unless otherwise permitted by the City. Weather permitting, utilities shall bury all temporary drops, excluding snowdrops, within ten (10) business days after placement.

(2) Underground Facilities Other than Electric Power or Communication Lines. Underground facilities other than electric power or communication lines may be installed by:

a. the use of "moles," "whip augers," or other approved methods which compress the earth to move the opening for the pipe;

b. jacking or boring with vented encasement provided between the ditch lines or toes of slopes of the highway;

c. open trench with vented encasement between ultimate ditch lines or toes of slopes, but only if prior to roadway construction; or

d. tunneling with vented encasement, but only if installation is not possible by other means.

(3) Gas Transmission, Distribution and Service. Gas pipelines within rights-of-way shall be constructed, maintained, and operated in a City approved manner and in conformance with the Federal Code of the Office of Pipeline Safety Operations, Department of Transportation, Part 192 - Transportation of Natural and Other Gas by Pipeline: Minimum Federal Safety Standards (49 CFR §192), IDOT's "Standard Specifications for Road and Bridge Construction," and all other applicable laws, rules, and regulations.

(4) Petroleum Products Pipelines. Petroleum products pipelines within rights-of-way shall conform to the applicable sections of ANSI Standard Code for Pressure Piping. (Liquid Petroleum Transportation Piping Systems ANSI-B 31.4).

(5) Waterlines, Sanitary Sewer Lines, Storm Water Sewer Lines or Drainage Lines. Water lines, sanitary sewer lines, storm sewer lines, and drainage lines within rights-of-way shall meet or exceed the recommendations of the current "Standard Specifications for Water and Sewer Main Construction in Illinois" as well as the City of Moline current supplemental specification.

(6) Ground Mounted Appurtenances. Ground mounted appurtenances to overhead or underground facilities, when permitted within a right-of-way, shall be provided with a vegetation-free area extending one (1) foot (305 mm) in width beyond the appurtenance in all directions. The vegetation-free area may be provided by an extension of the mounting pad, or by heavy duty plastic or similar material approved by the director of [public-worksengineering](#). With the approval of the director of [public-worksengineering](#), shrubbery surrounding the appurtenance may be used in place of vegetation-free area. The housing for ground-mounted appurtenances shall be painted a neutral color to blend with the surroundings.

(c) Materials.

(1) General Standards. The materials used in constructing facilities within rights-of-way shall be those meeting the accepted standards of the appropriate industry, the applicable portions of IDOT's "Standard Specifications for Road and Bridge Construction," the requirements of the Illinois Commerce Commission, or the standards established by other official regulatory agencies for the appropriate industry.

(2) Material Storage on Right-of-Way. No material shall be stored on the right-of-way without the prior written approval of the director of [public-worksengineering](#). When such storage is permitted, all pipe, conduit, wire, poles, cross arms, or other materials shall be distributed along the right-of-way prior to and during installation in a manner to minimize hazards to the public or an obstacle to right-of-way maintenance or damage to the right-of-way and other property. If material is to be stored on right-of-way, prior approval must be obtained from the City.

(3) Hazardous Materials. The plans submitted by the utility to the City shall identify any hazardous materials that may be involved in the construction of the new facilities or removal of any existing facilities.

(d) Operational Restrictions.

(1) Construction operations on rights-of-way may, at the discretion of the City, be required to be discontinued when such operations would create hazards to traffic or the public health, safety, and welfare. Such operations may also be required to be discontinued or restricted when conditions are such that construction would result in extensive damage to the right-of-way or other property.

(2) These restrictions may be waived by the director of [public-worksengineering](#) when emergency work is required to restore vital utility services.

(3) Unless otherwise permitted by the City, the hours of construction are those set forth in Chapter 21-1100(18) of this Code.

(e) Location of Existing Facilities. Any utility proposing to construct facilities in the City shall contact J.U.L.I.E. and ascertain the presence and location of existing above-ground and underground facilities within the rights-of-way to be occupied by its proposed facilities. The City will make its permit records available to a utility for the purpose of identifying possible facilities. When notified of an excavation or when requested by the City or by J.U.L.I.E., a utility shall locate and physically mark its underground facilities within forty-eight (48) hours, excluding weekends and holidays, in accordance with the Illinois Underground Facilities Damage Prevention Act (220 ILCS 50/1 et seq.)

Any utility that constructs facilities in the right-of-way within the City must become a member of J.U.L.I.E. and mark the location of its facilities when alerted to do so as a participating member of J.U.L.I.E. The City shall have no obligation to mark the location of any utility's facilities nor shall it be obligated to alert any utility to proposed work by itself or others.

(Ord. No. 3044-2020; Sec. 6-1115 repealed; new Sec. 6-1115 enacted; 12/15/20)

SEC. 6-1116. VEGETATION CONTROL.

(a) Electric Utilities - Compliance with State Laws and Regulations. An electric utility shall conduct all tree-trimming and vegetation control activities in the right-of-way in accordance with applicable Illinois laws and regulations, and additionally, with such local franchise or other agreement with the City as permitted by law.

(b) Specimen Trees or Trees of Special Significance. The City may require that special measures be taken to preserve specimen trees or trees of special significance. The required measures may consist of higher poles, side arm extensions,

covered wire or other means.

(c) Chemical Use.

- (1) Except as provided in the following paragraph, no utility shall spray, inject or pour any chemicals on or near any trees, shrubs or vegetation in the City for any purpose, including the control of growth, insects or disease.
- (2) Spraying of any type of brush-killing chemicals will not be permitted on rights-of-way unless the utility demonstrates to the satisfaction of the director of public-worksengineering that such spraying is the only practicable method of vegetation control. (Ord. No. 3044-2020; Sec. 6-1116 repealed; new Sec. 6-1116 enacted; 12/15/20)

SEC. 6-1117. REMOVAL, RELOCATION, OR MODIFICATIONS OF UTILITY FACILITIES.

(a) Notice. Within ninety (90) days following written notice from the City, a utility shall, at its own expense, protect, support, temporarily or permanently disconnect, remove, relocate, change or alter the position of any utility facilities within the rights-of-way whenever the corporate authorities have determined that such removal, relocation, change or alteration, is reasonably necessary for the construction, repair, maintenance, or installation of any City improvement in or upon, or the operations of the City in or upon, the rights-of-way.

(b) Removal of Unauthorized Facilities. Within thirty (30) days following written notice from the City, any utility that owns, controls, or maintains any unauthorized facility or related appurtenances within the rights-of-way shall, at its own expense, remove all or any part of such facilities or appurtenances from the rights-of-way. A facility is unauthorized and subject to removal in the following circumstances:

- (1) Upon expiration or termination of the permittee's license or franchise, unless otherwise permitted by applicable law;
- (2) If the facility was constructed or installed without the prior grant of a license or franchise, if required;
- (3) If the facility was constructed or installed without prior issuance of a required permit in violation of this article; or
- (4) If the facility was constructed or installed at a location not permitted by the permittee's license or franchise.

(c) Emergency Removal or Relocation of Facilities. The City retains the right and privilege to cut or move any facilities located within the rights-of-way of the City, as the City may determine to be necessary, appropriate or useful in response to any public health or safety emergency. If circumstances permit, the municipality shall attempt to notify the utility, if known, prior to cutting or removing a facility and shall notify the utility, if known, after cutting or removing a facility.

(d) Abandonment of Facilities. As used in this article, a facility that is not operated for a continuous period of twelve (12) months shall be considered abandoned. Upon abandonment of a facility within the rights-of-way of the City, the utility shall notify the City within ninety (90) days. The owner of the abandoned facility must remove the facility within ninety (90) days after sending such written notice to the City. The City may direct the utility to remove all or any portion of the facility if the City director of public-worksengineering determines that such removal will be in the best interest of the public health, safety and welfare. If the facility is not removed within ninety (90) days of such notice, the City may remove or cause the removal of the facility pursuant to the terms of its pole attachment agreement for City utility poles or through whatever actions are provided for abatement of nuisances or by other law for removal and cost recovery.

(Ord. No. 3044-2020; Sec. 6-1117 repealed; new Sec. 6-1117 enacted; 12/15/20)

SEC. 6-1118. CLEAN-UP AND RESTORATION.

The utility shall remove all excess material and restore all turf and terrain and other property within ~~twenty~~ (120) days after any portion of the rights-of-way are disturbed, damaged or destroyed due to construction or maintenance by the utility, all to the satisfaction of the City. This includes restoration of entrances and side roads. Sidewalks and bike/ped paths shall be restored within 10 days. Restoration of roadway, sidewalks and bike/ped path surfaces shall be made using materials and methods approved by the director of public-worksengineering. Such cleanup and repair may be required to consist of backfilling, regrading, reseeding, resodding, or any other requirement to restore the right-of-way to a condition substantially equivalent to that which existed prior to the commencement of the project. The time period provided in this Section may be extended by the director of public-worksengineering for good cause shown.

Projects which disturb the right-of-way fronting developed and occupied properties the Utility shall be responsible to inform the property owner the timeline for restoration prior to the start of any project adjacent to such properties.

(Ord. No. 3044-2020; Sec. 6-1118 repealed; new Sec. 6-1118 enacted; 12/15/20)

SEC. 6-1119. MAINTENANCE AND EMERGENCY MAINTENANCE.

(a) General. Facilities on, over, above, along, upon, under, across, or within rights-of-way are to be maintained by or for the utility in a manner satisfactory to the City and at the utility's expense.

(b) Emergency Maintenance Procedures. Emergencies may justify non-compliance with normal procedures for securing a permit:

- (1) If an emergency creates a hazard on the traveled portion of the right-of-way, the utility shall take immediate steps to provide all necessary protection for traffic on the highway or the public on the right-of-way including the use of signs, lights, barricades or flaggers. If a hazard does not exist on the traveled way, but the nature of the emergency is such as to require the parking on the shoulder of equipment required in repair operations, adequate signs and lights shall be provided. Parking

on the shoulder in such an emergency will only be permitted when no other means of access to the facility is available.

(2) In an emergency, the utility shall, as soon as possible, notify the director of ~~public works engineering~~ or his or her duly authorized agent of the emergency, informing him or her as to what steps have been taken for protection of the traveling public and what will be required to make the necessary repairs. If the nature of the emergency is such as to interfere with the free movement of traffic, the City police shall be notified immediately.

(3) In an emergency, the utility shall use all means at hand to complete repairs as rapidly as practicable and with the least inconvenience to the traveling public.

(c) Emergency Repairs. The utility must file in writing with the City a description of the repairs undertaken in the right-of-way within 48 hours after an emergency repair.

(Ord. No. 3044-2020; Sec. 6-1119 repealed; new Sec. 6-1119 enacted; 12/15/20)

SEC. 6-1120. VARIANCES.

(a) Request for Variance. A utility requesting a variance from one (1) or more of the provisions of this article must do so in writing to the ~~City Engineer~~ Director of Engineering through the director of public works as a part of the permit application. The request shall identify each provision of this article from which a variance is requested and the reasons why a variance should be granted.

(b) Authority to Grant Variances. The ~~City Engineer~~ Director of Engineering shall make a recommendation and forward the variance requests to the City Council to decide, on an individual basis, whether each variance is authorized for each provision of this article identified in the variance request.

(c) Conditions for Granting of Variance. The City Council may authorize a variance only if the utility requesting the variance has demonstrated that:

(1) One (1) or more conditions not under the control of the utility (such as terrain features or an irregular right-of-way line) create a special hardship that would make enforcement of the provision unreasonable, given the public purposes to be achieved by the provision; and

(2) All other designs, methods, materials, locations or facilities that would conform with the provision from which a variance is requested are impracticable in relation to the requested approach.

(d) Additional Conditions for Granting of a Variance. As a condition for authorizing a variance, the City Council may require the utility requesting the variance to meet reasonable standards and conditions that may or may not be expressly contained within this article but which carry out the purposes of this article.

(e) Right to Appeal. Any utility aggrieved by any order, requirement, decision or determination, including denial of a variance, made by the City Council under the provisions of this chapter shall have the right to appeal in circuit court pursuant to the Illinois Administrative Review Law.

(Ord. No. 3044-2020; Sec. 6-1120 repealed; new Sec. 6-1120 enacted; 12/15/20)

SEC. 6-1121. PENALTIES.

Any person who violates, disobeys, omits, neglects or refuses to comply with any of the provisions of this article shall be subject to fine in accordance with the penalty provisions of this Code. There may be times when the City will incur delay or other costs, including third party claims, because the utility will not or cannot perform its duties under its permit and this article. Unless the utility shows that another allocation of the cost of undertaking the requested action is appropriate, the utility shall bear the City's costs of damages and its costs of installing, maintaining, modifying, relocating, or removing the facility that is the subject of the permit. No other administrative agency or commission may review or overrule a permit related cost apportionment of the City. Sanctions may be imposed upon a utility that does not pay the costs apportioned to it.

(Ord. No. 3044-2020; Sec. 6-1121 repealed; new Sec. 6-1121 enacted; 12/15/20)

SEC. 6-1122. ENFORCEMENT.

Nothing in this article shall be construed as limiting any additional or further remedies that the City may have for enforcement of this article.

(Ord. No. 3044-2020; Sec. 6-1122 repealed; new Sec. 6-1122 enacted; 12/15/20)

SEC. 6-1123. SEVERABILITY.

This article shall be and is an enactment of the home rule authority of the City which is granted by Article VII, Section 6 of the Illinois Constitution of 1970 and any conflict between this ordinance and state statute or law shall be in derogation of such statute or law and shall supersede such statute or law, unless to do so would be otherwise unconstitutional, or otherwise create any liability on the part of the City, its employees, or officers. If any section, subsection, sentence, clause, phrase or portion of this article is for any reason held invalid or unconstitutional by any court of competent jurisdiction, such portion shall be deemed a separate, distinct, and independent provision and such holding shall not affect the validity of the remaining portions hereof.

(Ord. No. 3044-2020; Sec. 6-1123 repealed; new Sec. 6-1123 enacted; 12/15/20)

ARTICLE II. INSURANCE REQUIREMENTS FOR LICENSING AGREEMENTS ON PUBLIC PROPERTY AND RIGHTS-OF-WAYS.

SEC. 6-2100. GENERAL.

This article shall govern all Licensing Agreements or other uses of public property or public rights-of-way in which the Licensee intends to construct, build, maintain, establish, replace, use or occupy any space or area in, on above, or under any public property or public rights-of-way or improved public place (hereinafter collectively referred to as: "public property").

SEC. 6-2101. TERMS; DEFINITIONS.

For purposes of this article, the following terms shall have the following meanings:

- (a) **Block Party** shall mean a gathering of persons living within a residential neighborhood upon a city-owned right-of-way within that neighborhood, for recreational and/or social purposes.
- (b) **Carnival** or **Festival** shall mean any aggregation of attractions whether shows, acts, entertainment, sporting activities, games, vending devices, amusement devices, food and/or drink service or dram shop counters, whether conducted under one or more managements or independently, which are temporarily set up or conducted in a location accessible to the public, with or without admission fee to the aggregation as a whole.
- (c) **High risk** shall mean those activities having an increased risk of injury to persons or property.
- (d) **Improved public property** shall mean public ways and public places that generally contain surface improvements, such as public property containing buildings, pavement, sidewalks, curbs, and gutters.
- (e) **Parade** shall mean a group of persons with or without animals or vehicles in a public procession or march in or upon city-owned parks, streets, sidewalks or other public grounds. The term shall include road races, walk-a-thons, bike-a-thons and similar money-raising events. The term shall not include picketing or protest demonstrations which do not have the primary purpose or effect of obstructing the sidewalk or the traveling public thereon.
- (f) **Unimproved public property** shall mean public ways and public places that generally do not contain any type of surface improvements, such as pavement, sidewalks, curbs, and gutters or that are not paved surfaces.
- (g) **Examples of public property, both improved and unimproved**, include without limitation, the following:
 - (1) Publicly owned land
 - (2) Publicly owned buildings or facilities
 - (3) Alleys, streets, cul-de-sacs
 - (4) Sidewalks
 - (5) Easements
 - (6) Cross walkways
 - (7) Drainage channels
 - (8) All other areas embraced between the property lines and dedicated to the public use.

SEC. 6-2102. LICENSING AGREEMENTS; WHEN REQUIRED.

(a) With the exception of block parties, any event using public property shall follow the special events policy of the City Council as adopted from time to time. Such policy shall require, at a minimum, the execution of a licensing agreement and provision of a certificate of insurance in the amounts required in Section 6-2104 below. In addition, other activities which expose the City to liability as a result of the use of public property shall also require execution of a licensing agreement and provision of a certificate of insurance in the amounts required in Section 6-2104 below. Utilities and telecommunications providers shall be required to execute a licensing agreement one time per calendar year. All such certificates required herein must name the City as an additional insured. If the event or use of public property is one which has previously been approved by the City Council in a prior year, the mayor and city clerk are hereby authorized to sign subsequent licensing agreements in future years, subsequent to Council review and disapproval upon report. Nothing herein shall permit the closing of streets without prior Council approval by special ordinance.

- (b) Uses of public property which require the issuance of a licensing agreement and the certificate of insurance include, without limitation, the following:
- (1) Driveways
 - (2) Openings in streets
 - (3) Overhead structures or devices
 - (4) Underground devices

- (5) Underground areas
- (6) Walkways
- (7) Parades
- (8) Food & Bicycle races
- (9) Temporary mobile food service
- (10) Festivals
- (11) Special Events
- (12) Sidewalk Café

SEC. 6-2103. CERTIFICATE OF INSURANCE; FEES.

(a) A current Certificate of Insurance naming the City of Moline, Illinois, as an “additional insured” must be on file with the city clerk before a license agreement will be issued or renewed pursuant to Sec. 6-2102 above. Such Certificate shall be in the precise form determined by the City’s loss control manager, with the precise cancellation language required by said manager. Additionally, if the use or event involves a state route, the State of Illinois MUST also be named as an “additional insured.”

- (b) All related fees must be paid prior to issuance or renewal of a Licensing Agreement.
- (c) The city clerk shall keep a copy of the City’s required Certificate of Liability Insurance form in the office.

SEC. 6-2104. INSURANCE REQUIREMENTS; SPECIFICATIONS.

(a) The City attempts to make each user of public property responsible for the degree of risk to which each use exposes the City. The calculations are not intended to approach mathematical precision or to be equitable, but are instead minimum requirements for each particular use of public property. Therefore, each user of public property shall provide a certificate of insurance in the amounts specified herein. For any high risk activity, the costs of insurance will increase commensurate with the degree of risk. For all activities not specified, the City’s loss control manager shall determine the appropriate amount, subject to written appeal to the city administrator or designee.

(1) Nothing herein shall be construed as avoiding or repealing any other license or permit requirement of the Moline Code of Ordinances and any other such permits or licenses must be obtained in addition to the insurance herein required before processing hereunder.

(2) The description of public property uses and the insurance requirements to be provided and noted on the approved Certificates of Insurance which designates the City as additional insured are as follows:

INSURANCE TIERS FOR PARTICULAR ACTIVITIES	
Description	Insurance Requirement
(a) Run, race, walk-a-thon, bicycle race or balloon race	\$1,000,000 in total coverage
(b) Work on Public Way License	Insurance \$1,000,000 per occurrence; shall also Indemnify City
(c) Driveways Permit Class B – Use of Public Way	Insurance \$1,000,000 per occurrence or as directed by the Director of Revenue; applicant shall also indemnify City
(d) Streets, Curbs and Sidewalks Non Standard Surface Materials	Insurance \$1,000,000 per occurrence or as required by Commissioner of Transportation, whichever is greater; shall also indemnify City
(e) Kiosks	\$500,000
(f) Canopies/Marquees	\$1,000,000
(g) Outdoor Café (No Alcohol)	\$500,000
(h) Outdoor Café W/Alcohol	\$1,000,000 plus Iowa Endorsement Permit Requirement
(i) Structures On/Under/Over Public Property	\$1,000,000 and Owner/person in possession of property shall indemnify City and hold City harmless for damages to persons/property relating to structure
(j) Dumpsters/Roll Off Boxes Permit Requirement	\$1,000,000
(k) Street fair, festival, street dance, or other event (No alcohol)	\$1,000,000
(l) Street fair, festival, street dance, or other event (w/alcohol)	\$1,000,000 for under 500 persons expected in attendance [See subsection 6-2104(a)(3)]
(m) Street fair, festival, street dance or other event (w/alcohol)	\$1,000,000 for 500 to 5,000 persons expected in attendance [See subsection 6-2104(a)(3)]

(n) Street fair, festival, street dance, or other event (w/alcohol)	\$5,000,000 for more than 5,000 persons expected in attendance [See subsection 6-2104(a)(3)]
(o) Fire Prevention – Blasting and Explosives	Insurance (must be from insurance company rating of A-11 or better):
	\$3,000,000/\$10,000,000 – Mfg. & Sale of Explosives
	\$3,000,000/\$10,000,000 – Contractors Activities involving explosives with City additional insured.
	\$3,000,000/\$10,000,000 per occurrence – Delivery of Explosives for one (1) vehicle; \$1,000,000 per occurrence of each additional vehicle
(p) Signs – For Obstruction of Streets and Sidewalks (IDOT Permit Requirements)	Insurance \$1,000,000 with indemnification of City
(q) Fireworks; Petroleum Products Motorized Vehicle Races	\$5,000,000
(r) Carnivals, Excursion Boats	\$5,000,000
(s) All other Uses of Public Property	As determined by the Loss Control Manager, subject to Appeal to City Administrator or designee

(3) Attendance required in the immediately proceeding subsections must be estimated in good faith. Any estimate which is grossly disproportionate to actual attendance shall be presumed to be a fraud against the City, punished as an ordinance violation set forth in Sec. 1-1107 of the Code of Ordinances. For purposes of this section “grossly disproportionate” shall be where the number of persons is more than three times the attendance estimated by the user at the time of submission of the required Certificate of Insurance.

SEC. 6-2105. USES OF PARK PROPERTY.

Uses of park property shall be as determined by the Parks and Recreation Department, subject to the insurance requirements set forth by such Board.

(Ord. No. 2002-01-01; new Article II, “INSURANCE REQUIREMENTS FOR USE OF PUBLIC PROPERTY AND RIGHTS-OF-WAY,” enacted: 01/08/02)

SEC. 6-2106. USE OF PUBLIC RIGHT-OF-WAY FOR SIDEWALK FOOD AND BEVERAGE SERVICE.

Use of public right-of-way for sidewalk food and beverage service shall also be governed by administrative guidelines pertaining to such use, promulgated by City staff, which guidelines are authorized by this Code. A copy of the administrative guidelines may be obtained from the city clerk.

ARTICLE III. SMALL WIRELESS FACILITIES DEPLOYMENT

SEC. 6-3100. PURPOSE AND SCOPE.

(a) Purpose. The purpose of this article is to establish regulations, standards and procedures for the siting and collocation of small wireless facilities on rights-of-way within the City’s jurisdiction, or outside the rights-of-way on property zoned by the City exclusively for commercial or industrial use, in a manner that is consistent with the Act.

(b) Conflicts with Other Ordinances. This article supersedes all ordinances or parts of ordinances adopted prior hereto that are in conflict herewith, to the extent of such conflict.

(c) Conflicts with State and Federal Laws. In the event that applicable federal or State laws or regulations conflict with the requirements of this article, the wireless provider shall comply with the requirements of this article to the maximum extent possible without violating federal or State laws or regulations.

SEC. 6-3101. DEFINITIONS.

For the purposes of this article, the following terms shall have the following meanings:

- (1) “Act” – Public Act 100-0585, known as the Small Wireless Facilities Deployment Act.
- (2) “Antenna” – Communications equipment that transmits or receives electromagnetic radio frequency signals used in the provision of wireless services.
- (3) “Applicable codes” – Uniform building, fire, electrical, plumbing, or mechanical codes adopted by a recognized national code organization or local amendments to those codes, including the National Electric Safety Code.
- (4) “Applicant” – Any person who submits an application and is a wireless provider.
- (5) “Application” – A request submitted by an applicant to the City for a permit to collocate small wireless facilities, and a request that includes the installation of a new utility pole for such collocation, as well as any applicable fee for the review of

such application.

(6) "Collocate" or "collocation" – To install, mount, maintain, modify, operate, or replace wireless facilities on or adjacent to a wireless support structure or utility pole.

(7) "Communications service" – Cable service, as defined in 47 U.S.C. 522(6), as amended; information service, as defined in 47 U.S.C. 153(24), as amended; telecommunications service, as defined in 47 U.S.C. 153(53), as amended; mobile service, as defined in 47 U.S.C. 153(53), as amended; or wireless service other than mobile service.

(8) "Communications service provider" – A cable operator, as defined in 47 U.S.C. 522(5), as amended; a provider of information service, as defined in 47 U.S.C. 153(24), as amended; a telecommunications carrier, as defined in 47 U.S.C. 153(51), as amended; or a wireless provider.

(9) "FCC" – The Federal Communications Commission of the United States.

(10) "Fee" – A one-time charge.

(11) "Historic district" or "historic landmark" – A building, property, or site, or group of buildings, properties, or sites that are either (i) listed in the National Register of Historic Places or formally determined eligible for listing by the Keeper of the National Register, the individual who has been delegated the authority by the federal agency to list properties and determine their eligibility for the National Register, in accordance with Section VI.D.1.a.i through Section VI.D.1.a.v of the Nationwide Programmatic Agreement codified at 47 CFR Part 1, Appendix C; or (ii) designated as a locally landmarked building, property, site, or historic district by an ordinance adopted by the City pursuant to a preservation program that meets the requirements of the Certified Local Government Program of the Illinois State Historic Preservation Office or where such certification of the preservation program by the Illinois State Historic Preservation Office is pending.

(12) "Law" – A federal or State statute, common law, code, rule, regulation, order, or local ordinance or resolution.

(13) "Micro wireless facility" – A small wireless facility that is not larger in dimension than twenty-four (24) inches in length, fifteen (15) inches in width, and twelve (12) inches in height and that has an exterior antenna, if any, no longer than eleven (11) inches.

(14) "Municipal utility pole" – A utility pole owned or operated by the City in public rights-of-way.

(15) "Permit" – A written authorization required by the City to perform an action or initiate, continue, or complete a project.

(16) "Person" – An individual, corporation, limited liability company, partnership, association, trust, or other entity or organization.

(17) "Public safety agency" – The functional division of the federal government, the State, a unit of local government, or a special purpose district located in whole or in part within this State, that provides or has authority to provide firefighting, police, ambulance, medical, or other emergency services to respond to and manage emergency incidents.

(18) "Rate" – A recurring charge.

(19) "Right-of-way" – The area on, below, or above a public roadway, highway, street, public sidewalk, alley, or utility easement dedicated for compatible use. Right-of-way does not include City-owned aerial lines.

(20) "Small wireless facility" – A wireless facility that meets both of the following qualifications: (i) each antenna is located inside an enclosure of no more than six (6) cubic feet in volume or, in the case of an antenna that has exposed elements, the antenna and all of its exposed elements could fit within an imaginary enclosure of no more than six (6) cubic feet; and (ii) all other wireless equipment attached directly to a utility pole associated with the facility is cumulatively no more than twenty-five (25) cubic feet in volume. The following types of associated ancillary equipment are not included in the calculation of equipment volume: electric meter, concealment elements, telecommunications demarcation box, ground-based enclosures, grounding equipment, power transfer switch, cut-off switch, and vertical cable runs for the connection of power and other services.

(21) "Utility pole" – A pole or similar structure that is used in whole or in part by a communications service provider or for electric distribution, lighting, traffic control, or a similar function.

(22) "Wireless facility" – Equipment at a fixed location that enables wireless communications between user equipment and a communications network, including: (i) equipment associated with wireless communications; and (ii) radio transceivers, antennas, coaxial or fiber-optic cable, regular and backup power supplies, and comparable equipment, regardless of technological configuration. Wireless facility includes small wireless facilities. Wireless facility does not include: (i) the structure or improvements on, under, or within which the equipment is collocated; or (ii) wireline backhaul facilities, coaxial or fiber optic cable that is between wireless support structures or utility poles or coaxial, or fiber optic cable that is otherwise not immediately adjacent to or directly associated with an antenna.

(23) "Wireless infrastructure provider" – Any person authorized to provide telecommunications service in the State that builds or installs wireless communication transmission equipment, wireless facilities, wireless support structures, or utility poles and that is not a wireless services provider but is acting as an agent or a contractor for a wireless services provider for the application submitted to the City.

(24) "Wireless provider" – A wireless infrastructure provider or a wireless services provider.

(25) "Wireless services" – Any services provided to the general public, including a particular class of customers, and made available on a nondiscriminatory basis using licensed or unlicensed spectrum, whether at a fixed location or mobile, provided using wireless facilities.

(26) "Wireless services provider" – A person who provides wireless services.

(27) "Wireless support structure" – A freestanding structure, such as a monopole; tower, either guyed or self-supporting; billboard; or other existing or proposed structure designed to support or capable of supporting wireless facilities. Wireless support structure does not include a utility pole.

SEC. 6-3102. REGULATION OF SMALL WIRELESS FACILITIES.

(a) Permitted Use. Small wireless facilities shall be classified as permitted uses and subject to administrative review, except as provided for in applications including requested variations from the requirements of this article as specified herein, but not subject to zoning review or approval if they are collocated (i) in rights-of-way in any zoning district, or (ii) outside rights-of-way in property zoned exclusively for commercial or industrial use.

(b) Permit Required. An applicant shall obtain one or more permits from the City to collocate a small wireless facility. An application shall be received and processed, and permits issued shall be subject to the following conditions and requirements:

(1) Application Requirements. A wireless provider shall provide the following information to the City, together with the City's small cell facilities permit application, as a condition of any permit application to collocate small wireless facilities on a utility pole or wireless support structure:

a. Site specific structural integrity and, for a municipal utility pole, make-ready analysis prepared by a structural engineer, as that term is defined in Section 4 of the Structural Engineering Practice Act of 1989;

b. The location where each proposed small wireless facility or utility pole would be installed and photographs of the location and its immediate surroundings depicting the utility poles or structures on which each proposed small wireless facility would be mounted or location where utility poles or structures would be installed; this should include a depiction of the completed facility;

c. Specifications and drawings prepared by a structural engineer, as that term is defined in Section 4 of the Structural Engineering Practice Act of 1989, for each proposed small wireless facility covered by the application as it is proposed to be installed, to include dimensional details of small wireless facilities and mounting hardware used to attach equipment to the utility pole or small wireless support structure;

d. The equipment type and model numbers for the antennas and all other wireless equipment associated with the small wireless facility;

e. A proposed schedule for the installation and completion of each small wireless facility covered by the application, if approved; and

f. Certification that the collocation complies with the collocation requirements and conditions contained herein, to the best of the applicant's knowledge.

g. In the event that the proposed small wireless facility is to be attached to an existing pole owned by an entity other than the City, the wireless provider shall provide legally competent evidence of the consent of the owner of such pole to the proposed collocation.

h. In the event that the proposed small wireless facility is to be attached to an existing pole owned by the City, the wireless provider shall be required to enter into a pole usage agreement pursuant to this article.

i. Any other documentation and materials identified in Section 6-1103 of the Moline Code of Ordinances.

(2) Application Process. The City shall process applications as follows:

a. The first completed application shall have priority over applications received by different applicants for collocation on the same utility pole or wireless support structure.

b. An application to collocate a small wireless facility on an existing utility pole or wireless support structure, or replacement of an existing utility pole or wireless support structure shall be processed on a nondiscriminatory basis and shall be deemed approved if the City fails to approve or deny the application within ninety (90) days after the submission of a completed application.

However, if an applicant intends to proceed with the permitted activity on a deemed approved basis, the applicant shall notify the City in writing of its intention to invoke the deemed approved remedy no sooner than seventy-five (75) days after the submission of a completed application.

The permit shall be deemed approved on the latter of the 90th day after submission of the complete application or the 10th day after the receipt of the deemed approved notice by the City. The receipt of the deemed approved notice shall not preclude the City's denial of the permit request within the time limits as provided under this article.

c. An application to collocate a small wireless facility that includes the installation of a new utility pole shall be processed on a nondiscriminatory basis and deemed approved if the City fails to approve or deny the application within one hundred twenty (120) days after the submission of a completed application.

However, if an applicant intends to proceed with the permitted activity on a deemed approved basis, the applicant shall notify the City in writing of its intention to invoke the deemed approved remedy no sooner than one hundred five (105) days after the submission of a completed application.

The permit shall be deemed approved on the latter of the 120th day after submission of the complete application or the 10th day after the receipt of the deemed approved notice by the City. The receipt of the deemed approved notice shall not preclude the City's denial of the permit request within the time limits as provided under this article.

d. The City shall deny an application which does not meet the requirements of this article.

If the City determines that applicable codes, ordinances or regulations that concern public safety, or the collocation requirements and conditions contained herein require that the utility pole or wireless support structure be replaced before the requested collocation, approval shall be conditioned on the replacement of the utility pole or wireless support structure at the cost of the wireless provider.

The City shall document the basis for a denial, including the specific code provisions or application conditions on which the denial is based, and send the documentation to the applicant on or before the day the City denies an application.

The applicant may cure the deficiencies identified by the City and resubmit the revised application once within thirty (30) days after notice of denial is sent to the applicant without paying an additional application fee. The City shall approve or deny the revised application within thirty (30) days after the applicant resubmits the application or it is deemed approved. Failure to resubmit the revised application within thirty (30) days of denial shall require the applicant to submit a new application with applicable fees, and recommencement of the City's review period.

The applicant must notify the City in writing of its intention to proceed with the permitted activity on a deemed approved basis, which may be submitted with the revised application.

Any review of a revised application shall be limited to the deficiencies cited in the denial. However, this revised application does not apply if the cure requires the review of a new location, new or different structure to be collocated upon, new antennas, or other wireless equipment associated with the small wireless facility.

e. Pole Attachment Agreement. Within thirty (30) days after an approved permit to collocate a small wireless facility on a municipal utility pole, the City and the applicant shall enter into a master pole attachment agreement, provided by the City for the initial collocation on a municipal utility pole by the applicant. For subsequent approved permits to collocate on a small wireless facility on a municipal utility pole, the City and the applicant shall enter into a license supplement of the master pole attachment agreement.

(3) Completeness of Application. Within thirty (30) days after receiving an application, the City shall determine whether the application is complete and notify the applicant. If an application is incomplete, the City must specifically identify the missing information. An application shall be deemed complete if the City fails to provide notification to the applicant within thirty (30) days after all documents, information and fees specifically enumerated in the City's permit application form are submitted by the applicant to the City.

Processing deadlines are tolled from the time the City sends the notice of incompleteness to the time the applicant provides the missing information.

(4) Tolling. The time period for applications may be further tolled by:

- a. An express written agreement by both the applicant and the City; or
- b. A local, State or federal disaster declaration or similar emergency that causes the delay.

(5) Consolidated Applications. An applicant seeking to collocate small wireless facilities within the jurisdiction of the City shall be allowed, at the applicant's discretion, to file a consolidated application and receive a single permit for the collocation of up to twenty-five (25) small wireless facilities if the collocations each involve substantially the same type of small wireless facility and substantially the same type of structure. Application fees for a consolidated application are set forth in subsection (d) below. If a single permit is issued, the "annual recurring rate" charged will be per facility, as set forth in subsection (g) below.

If an application includes multiple small wireless facilities, the City may remove small wireless facility collocations from the application and treat separately small wireless facility collocations for which incomplete information has been provided or that do not qualify for consolidated treatment or that are denied. The City may issue separate permits for each collocation that is approved in a consolidated application.

(6) Duration of Permits. The duration of a permit shall be for a period of five (5) years, and the permit shall be renewed for equivalent durations unless the City makes a finding that the small wireless facilities or the new or modified utility pole do not comply with the applicable City codes or any provision, condition or requirement contained in this article.

If the Act is repealed as provided in Section 90 therein, renewals of permits shall be subject to the applicable City code provisions or regulations in effect at the time of renewal.

(7) Means of Submitting Applications. Applicants shall submit applications, supporting information and notices to the City by:

a. Delivering a hard copy either by personal delivery at the City's designated place of business, by regular mail postmarked on the date due or by overnight courier delivery service; and

b. Delivering an electronic copy by electronic mail to the address provided on the application.

(c) Collocation Requirements and Conditions.

(1) Public Safety Space Reservation. The City may reserve space on municipal utility poles for future public safety uses, for the City's electric utility uses, or both, but a reservation of space may not preclude the collocation of a small wireless facility unless the City reasonably determines that the municipal utility pole cannot accommodate both uses.

(2) Installation and Maintenance. The wireless provider shall install, maintain, repair and modify its small wireless facilities in safe condition and good repair and in compliance with the requirements and conditions of this article. The wireless provider shall ensure that its employees, agents or contractors that perform work in connection with its small wireless facilities are adequately trained and skilled in accordance with all applicable industry and governmental standards and regulations.

(3) No Interference with Public Safety Communication Frequencies. The wireless provider's operation of the small wireless facilities shall not interfere with the frequencies used by a public safety agency for public safety communications.

A wireless provider shall install small wireless facilities of the type and frequency that will not cause unacceptable interference with a public safety agency's communications equipment.

Unacceptable interference will be determined by and measured in accordance with industry standards and the FCC's regulations addressing unacceptable interference to public safety spectrum or any other spectrum licensed by a public safety agency.

If a small wireless facility causes such interference, and the wireless provider has been given written notice of the interference by the public safety agency, the wireless provider, at its own expense, shall remedy the interference in a manner consistent with the abatement and resolution procedures for interference with public safety spectrum established by the FCC, including 47 CFR 22.970 through 47 CFR 22.973 and 47 CFR 90.672 through 47 CFR 90.675.

The City may terminate a permit for a small wireless facility based on such interference if the wireless provider is not in compliance with the Code of Federal Regulations cited in the previous paragraph. Failure to remedy the interference as required herein shall constitute a public nuisance.

(4) The wireless provider shall not collocate small wireless facilities on City utility poles that are part of an electric distribution or transmission system within the communication worker safety zone of the pole or the electric supply zone of the pole.

However, the antenna and support equipment of the small wireless facility may be located in the communications space on the City utility pole and on the top of the pole, if not otherwise unavailable, if the wireless provider complies with applicable codes for work involving the top of the pole.

For purposes of this subparagraph, the terms "communications space", "communication worker safety zone", and "electric supply zone" have the meanings given to those terms in the National Electric Safety Code as published by the Institute of Electrical and Electronics Engineers.

(5) The wireless provider shall comply with all applicable codes and local code provisions or regulations that concern public safety.

(6) The wireless provider shall comply with written design standards that are generally applicable for decorative utility poles, or reasonable stealth, concealment and aesthetic requirements that are set forth in any City ordinance, written policy adopted by the City, a comprehensive plan or other written design plan that applies to other occupiers of the rights-of-way, including on a historic landmark or in a historic district.

(7) Alternate Placements. Except as provided in this collocation requirements and conditions section, a wireless provider shall not be required to collocate small wireless facilities on any specific utility pole, or category of utility poles, or be required to collocate multiple antenna systems on a single utility pole. However, with respect to an application for the collocation of a small wireless facility associated with a new utility pole, the City may propose that the small wireless facility be collocated on an existing utility pole or existing wireless support structure within one hundred (100) feet of the proposed collocation, which the applicant shall accept if it has the right to use the alternate structure on reasonable terms and conditions, and the alternate location and structure does not impose technical limits or additional material costs as determined by the applicant.

If the applicant refuses a collocation proposed by the City, the applicant shall provide written certification describing the property rights, technical limits or material cost reasons the alternate location does not satisfy the criteria in this paragraph.

(8) Height Limitations. The maximum height of a small wireless facility shall be no more than ten (10) feet above the utility pole or wireless support structure on which the small wireless facility is collocated.

New or replacement utility poles or wireless support structures on which small wireless facilities are collocated may not exceed the higher of:

a. Ten (10) feet in height above the tallest existing utility pole, other than a utility pole supporting only wireless facilities, that is in place on the date the application is submitted to the City, that is located within three hundred (300) feet of the new or replacement utility pole or wireless support structure and that is in the same right-of-way within the jurisdictional boundary of the City, provided the City may designate which intersecting right-of-way within three hundred (300) feet of the proposed utility pole or wireless support structures shall control the height limitation for such facility; or

b. Forty-five (45) feet above ground level.

(9) Height Exceptions or Variances. If an applicant proposes a height for a new or replacement pole in excess of the above height limitations on which the small wireless facility is proposed for collocation, the applicant shall apply for a variance in conformance with procedures, terms and conditions set forth in Section 6-1120.

(10) Contractual Design Requirements. The wireless provider shall comply with requirements that are imposed by a contract between the City and a private property owner that concern design or construction standards applicable to utility poles and ground-mounted equipment located in the right-of-way.

(11) Ground-Mounted Equipment Spacing. The wireless provider shall comply with applicable spacing requirements in applicable codes and ordinances concerning the location of ground-mounted equipment located in the right-of-way if the requirements include a waiver, zoning or other process that addresses wireless provider requests for exception or variance and do not prohibit granting of such exceptions or variances.

(12) Undergrounding Regulations. The wireless provider shall comply with local code provisions or regulations concerning undergrounding requirements that prohibit the installation of new or the modification of existing utility poles in a right-of-way without prior approval if the requirements include a waiver, zoning or other process that addresses requests to install such new utility poles or modify such existing utility poles and do not prohibit the replacement of utility poles.

(13) Collocation Completion Deadline. Collocation for which a permit is granted shall be completed within one hundred eighty (180) days after issuance of the permit, unless the City and the wireless provider agree to extend this period or a delay is caused by make-ready work for a municipal utility pole or by the lack of commercial power or backhaul availability at the site, provided the wireless provider has made a timely request within sixty (60) days after the issuance of the permit for commercial power or backhaul services, and the additional time to complete installation does not exceed three hundred sixty (360) days after issuance of the permit. Otherwise, the permit shall be void unless the City grants an extension in writing to the applicant.

(14) Cooperation. As a condition of any permit for installation of a new pole, small wireless support structure, or other above-ground facility granted pursuant to this article, permittees shall be required to cooperate with the City and other small wireless providers in collocating additional small wireless facilities on poles and small wireless support structures owned by the permittee, provided that such proposed additional small wireless provider has been issued permits for that location by the City as described herein. All permittees shall exercise good faith in collocating other small wireless providers regarding sharing of the permitted site, provided that such shared use does not give rise to a substantial technical level of impairment of the ability to provide the permitted use (i.e., significant interference in broadcast capabilities as opposed to a competitive conflict or financial burden). Such good faith shall include sharing technical information to evaluate the feasibility of sharing utility poles or small wireless infrastructure. In the event that a dispute arises as to whether a permittee has exercised good faith in accommodating other users, the City may require a third-party technical study at the expense of the applicant, the permittee, or both.

(d) Application Fees. Application fees are imposed as follows:

(1) Applicant shall pay an application fee of six hundred fifty dollars (\$650) for an application to collocate a single small wireless facility on an existing utility pole or wireless support structure, and three hundred fifty dollars (\$350) for each small wireless facility addressed in a consolidated application to collocate more than one (1) small wireless facility on existing utility poles or wireless support structures.

(2) Applicant shall pay an application fee of one thousand dollars (\$1,000) for each small wireless facility addressed in an application that includes the installation of a new utility pole for such collocation.

(3) Notwithstanding any contrary provision of State law or local ordinance, applications pursuant to this section must be accompanied by the required application fee. Application fees are non-refundable.

(4) The City shall not require an application, approval or permit, or require any fees or other charges, from a communications service provider authorized to occupy the rights-of-way, for:

a. routine maintenance;

b. the replacement of wireless facilities with wireless facilities that are substantially similar, the same size, or smaller if the wireless provider notifies the City at least ten (10) days prior to the planned replacement and includes equipment specifications for the replacement of equipment consistent with subsection d. under the section titled "Application Requirements;" or

c. the installation, placement, maintenance, operation or replacement of micro wireless facilities suspended on cables that are strung between existing utility poles in compliance with applicable safety codes.

(5) Wireless providers shall secure a permit from the City to work within rights-of-way for activities that affect traffic patterns or require lane closures.

(e) Exceptions to Applicability. Nothing in this article authorizes a person to collocate small wireless facilities on:

(1) Property owned by a private party or property owned or controlled by the City or another unit of local government that is not located within rights-of-way, or a privately owned utility pole or wireless support structure without the consent of the property owner;

(2) Property owned, leased, or controlled by a park district, forest preserve district, or conservation district for public park, recreation or conservation purposes without the consent of the affected district, excluding the placement of facilities on

rights-of-way located in an affected district that are under the jurisdiction and control of a different unit of local government as provided by the Illinois Highway Code; or

(3) Property owned by a rail carrier registered under Section 18c-7201 of the Illinois Vehicle Code, Metra Commuter Rail or any other public commuter rail service, or an electric utility as defined in Section 16-102 of the Public Utilities Act, without the consent of the rail carrier, public commuter rail service, or electric utility. The provisions of this article do not apply to an electric or gas public utility or such utility's wireless facilities if the facilities are being used, developed and maintained consistent with the provisions of subsection (i) of Section 16-108.5 of the Public Utilities Act.

For the purposes of this subsection, "public utility" has the meaning given to that term in Section 3-105 of the Public Utilities Act. Nothing in this article shall be construed to relieve any person from any requirement (a) to obtain a franchise or a State-issued authorization to offer cable service or video service, or (b) to obtain any required permission to install, place, maintain, or operate communications facilities, other than small wireless facilities subject to this article.

(f) Pre-Existing Agreements. Existing agreements between the City and wireless providers that relate to the collocation of small wireless facilities in the right-of-way, including the collocation of small wireless facilities on City utility poles, that are in effect on June 1, 2018, remain in effect for all small wireless facilities collocated on the City's utility poles pursuant to applications submitted to the City before June 1, 2018, subject to applicable termination provisions contained therein. Agreements entered into after June 1, 2018, shall comply with this article.

(g) Annual Recurring Rate. A wireless provider shall pay to the City an annual recurring rate to collocate a small wireless facility on a City utility pole located in a right-of-way that equals (i.) two hundred dollars (\$200) per year, or (ii.) the actual, direct and reasonable costs related to the wireless provider's use of space on the City utility pole.

If the City has not billed the wireless provider actual and direct costs, the fee shall be two hundred dollars (\$200) payable on the first day after the first annual anniversary of the issuance of the permit or notice of intent to collocate, and on each annual anniversary date thereafter.

(h) Obsolescence, Abandonment, and Removal. Any small wireless facility that is no longer needed or is not operational shall be reported immediately by the small wireless provider to the City. Any obsolete or nonoperational small wireless facilities shall be removed within ninety (90) days following notice to the City by the provider. A small wireless facility that is not operated for a continuous period of twelve (12) months shall be considered abandoned. The owner of the facility shall remove the small wireless facility within ninety (90) days after receipt of written notice from the City notifying the wireless provider of the abandonment.

The notice shall be sent by certified or registered mail, return receipt requested, by the City to the owner at the last known address of the wireless provider. If the small wireless facility is not removed within ninety (90) days of such notice, the City may remove or cause the removal of such facility pursuant to the terms of its pole attachment agreement for municipal utility poles or through whatever actions are provided for abatement of nuisances or by other law for removal and cost recovery.

A wireless provider shall provide written notice to the City if it sells or transfers small wireless facilities within the jurisdiction of the City. Such notice shall include the name and contact information of the new wireless provider.

SEC. 6-3103. DESIGN AND SAFETY REQUIREMENTS.

(a) Design Standards. In addition to any other applicable design standards as set forth in the applicable codes and ordinances or imposed by any other law or regulations, a wireless provider shall comply with the following design standards:

(1) Screening. Whenever any equipment or appurtenances, i.e. cabinet, controller, etc., are to be installed, screening must be installed to minimize the visibility of such equipment or appurtenance and shall not be permitted to obstruct sight lines or to create other traffic or safety problems.

(2) Color and Stealth. All small wireless facilities, including all related equipment and appurtenances, must be a color that blends with the surroundings of the utility pole, wireless support structure, or other structure on which such facility or equipment is mounted, placed, or collocated. The color must be comprised of non-reflective materials which blend with the materials and colors of the surrounding area and structures. The wireless provider shall use good faith efforts to employ reasonable stealth techniques to conceal the appearance of a small wireless facility or its related equipment and appurtenances.

(3) Utility Poles; Wireless Support Structures; Extensions. Any utility pole extension or wireless support structure extension shall blend with the color of the utility pole or wireless support structure upon which the extension is mounted. Any new utility pole or replacement utility pole should be metallic unless otherwise approved by the City, and shall blend with the color, style, and structure of any surrounding utility poles or wireless support structures.

(4) Size. The wireless provider shall make good faith efforts to ensure the silhouette of the small wireless facility and its related equipment and appurtenances are reduced to minimize visual impact.

(5) Illumination. Small wireless facilities shall not be illuminated unless required by law.

(6) Generators and Backup Battery. Generators are not permitted for small wireless facilities. All proposed battery backups must be reviewed and approved by the City.

(b) Safety Standards. In addition to any other applicable safety standards as set forth in the applicable codes and ordinances or imposed by any other law or regulations, a wireless provider shall comply with the following safety standards:

(1) A small wireless facility and any related equipment or appurtenance shall not be collocated in a manner so as to obstruct or interfere with a motorist's view of roadways, nor shall any small wireless facility and any related equipment or appurtenance be collocated in a manner which obstructs the view of a motorist at an intersection. Further, wireless providers are encouraged and should allow for the full use of the public right-of-way by pedestrians, bicycles, and other users.

(2) Any and all transmission cables and cable trays deployed horizontally above the ground between any number of small wireless facilities and its equipment, or between any number of small wireless facilities, or between any number of small wireless facilities' equipment, shall be at least eight (8) feet above ground at all points.

(3) Wires and cables connecting the antenna to the remainder of the small wireless facility must be installed in accordance with the national electrical code, national electrical safety code, or any other applicable code adopted by the City and in force at the time of the installation of the small wireless facility. Any wiring must be covered with an appropriate cover. No wiring or cabling serving the facility will be allowed to interfere with any existing uses.

(4) No signage shall be permitted on any small wireless facility or its related equipment or appurtenances, other than signs that are required for public safety purposes, by law, or by the FCC, FAA, or other similar governmental agency.

(5) The location of wireless support structures, replacement poles, and/or any new poles shall comply with the Americans with Disabilities Act (ADA), City construction standards, and State and federal regulations in order to provide a clear and safe passage with the public right-of-way.

(6) No small wireless facilities or related equipment shall be operated to produce noise levels above forty (40) decibels as measured from the nearest property line to which the small wireless facility is located.

SEC. 6-3104. DISPUTE RESOLUTION.

The Circuit Court of Rock Island County shall have exclusive jurisdiction to resolve all disputes arising under the Act. Pending resolution of a dispute concerning rates for collocation of small wireless facilities on municipal utility poles within the right-of-way, the City shall allow the collocating person to collocate on its poles at annual rates of no more than two hundred dollars (\$200) per year per municipal utility pole, with rates to be determined upon final resolution of the dispute.

SEC. 6-3105. INDEMNIFICATION.

A wireless provider shall indemnify and hold the City harmless against any and all liability or loss from personal injury or property damage resulting from or arising out of, in whole or in part, the use or occupancy of the City improvements or right-of-way associated with such improvements by the wireless provider or its employees, agents, or contractors arising out of the rights and privileges granted under this article and the Act. A wireless provider has no obligation to indemnify or hold harmless against any liabilities and losses as may be due to or caused by the sole negligence of the City or its employees or agents. A wireless provider shall further waive any claims that they may have against the City with respect to consequential, incidental, or special damages, however caused, based on the theory of liability.

SEC. 6-3106. INSURANCE.

The wireless provider shall carry, at the wireless provider's own cost and expense, insurance as required in Section 6-1107.

SEC. 6-3107. SEVERABILITY.

If any provision of this article or application thereof to any person or circumstances is ruled unconstitutional or otherwise invalid, such invalidity shall not affect other provisions or applications of this article that can be given effect without the invalid application or provision, and each invalid provision or invalid application of this article is severable.

(Ord. No. 3030-2018; new Article III, "SMALL WIRELESS FACILITIES DEPLOYMENT," enacted; 07/24/18)
