## Clinton County Eco Trip

Do we have any nature buffs out there? If so, come join us as we take a trip up to Clinton County. We will board the Blue Heron and cruise the Mississippi River while learning about river wildlife, commercial navigation, and industrial uses of the river. Participants will learn about the sport of canoeing as they explore some of the tighter spots of the river and even do some wading in the shallows for mussels! Lastly, we will participate in a GPS (global positioning system) course where our group will be broken into teams, given a GPS unit, and must find predetermined locations. Should be fun!

**\*Be sure to sign up soon, spots will fill quickly!**
