

McCarthy Improvement Company

-----PAVING * GRADING* HEAVY CONSTRUCTION-----

Transportation News

For Immediate Release: October 21, 2009

Contractor: McCarthy Improvement Company

Owner: State of Illinois Department of Transportation

Project: I-74 Moline, Illinois

Location of Work: Both lanes from Mississippi Bridge to Interstate 280

Work Description:

Weather permitting:

Traffic switches (lane changes) in both directions will be taking place on mainline this week. Lanes will be switched westbound (north) first and then eastbound (south) second.

The following ramp will open this Friday: Avenue of the Cities to I-74 East (south) Bound.

Beginning Monday, October 26, 2009, the following ramps shall be closed: I-74 West (north) to the Avenue of the Cities and I-74 East (south) to Il 5 (John Deere Road) East Bound. These ramps will be closed for one week for concrete patching and repair.

Asphalt milling and resurfacing of the entire mainline of the I-74 project is now in progress. The work will be taking place in both directions for a period of more than a month. McI will notify the public of any further lane changes (switches) as far in advanced as possible.

Please continue to use caution during the final stages of work for the 2009 construction period.
