CR-05 - Goals and Outcomes

Progress the jurisdiction has made in carrying out its strategic plan and its action plan. 91.520(a)

This could be an overview that includes major initiatives and highlights that were proposed and executed throughout the program year.

During the 2018 reporting period, the City utilized various Federal and State grants to carry out its strategic plan and action plan. The City utilized Single Family Rehabilitation (SFR) (\$69,093.10) funds through the Illinois Housing Development Authority to rehab two properties. The City applied for and was awarded another round of Single Family Rehabilitation, to include a Roof-Only option and another round of Abandoned Properties Program. The City used the above funds and will use funds from the new grants to continue its efforts to address the priority housing and community needs identified in the 2015-2019 Consolidated Plan. CDBG resources allotted for the rehabilitation (\$141,565.57) of twenty-seven low to moderate income owner-occupied housing units, and twenty-two replacement sidewalk locations (\$43,158.41). The City's subrecipients who were awarded money through our Citizens Advisory Council on Urban Policy (CACUP) board expended over \$17,000 to update a local park and signage in a low to moderate income area.

Comparison of the proposed versus actual outcomes for each outcome measure submitted with the consolidated plan and explain, if applicable, why progress was not made toward meeting goals and objectives. 91.520(g)

Categories, priority levels, funding sources and amounts, outcomes/objectives, goal outcome indicators, units of measure, targets, actual outcomes/outputs, and percentage completed for each of the grantee's program year goals.

Goal	Category	Source / Amount	Indicator	Unit of Measure	Expected - Strategic Plan	Actual - Strategic Plan	Percent Complete	Expected - Program Year	Actual - Program Year	Percent Complete

Table 1 - Accomplishments – Program Year & Strategic Plan to Date

Assess how the jurisdiction's use of funds, particularly CDBG, addresses the priorities and specific objectives identified in the plan, giving special attention to the highest priority activities identified.

The City of Moline identified numerous goals and priorities in the 2015-2019 Consolidated Plan, which are illustrated above. Code Enforcement has met and/or exceeded the number of demolitions and property care enforcement using CDBG funds. This goal was accomplished by funding a portion of the Neighborhood Improvement Officer's salary to address various properties that are in disrepair or dangerous to the community through Notice and Order to Correction Violations. Locations were verified on a quarterly basis through our ArcGIS Mapping system. Increased Economic Opportunities continues to be a goal and priority for the City, however we have encountered barriers that have been out of our control in order to meet the expectations as outlined. The City has been working with various businesses in the Florencia Neighborhood located in Census Tract 223, with infrastructure improvements to the sidewalks outside of these businesses. The City continues to provide rehabilitation services to low to moderate income individuals to preserve and improve area neighborhoods. This is a continuous program that is funded through CDBG year after year. Overall, the City will continue to utilize CDBG funds to meet the goals and priorities within the 5 year consolidated plan timeline. The City is on track of ensuring that these are met, if not exceeded.

CR-10 - Racial and Ethnic composition of families assisted

Describe the families assisted (including the racial and ethnic status of families assisted).
91.520(a)

	CDBG
White	14
Black or African American	2
Asian	0
American Indian or American Native	0
Native Hawaiian or Other Pacific Islander	0
Total	16
Hispanic	5
Not Hispanic	16

Table 2 – Table of assistance to racial and ethnic populations by source of funds

Narrative

Fourteen White, two Black or African American and five Hispanic clients were assisted with CDBG funds provided through the Community Housing Services Program and Critical Assistance Program. Work completed includes:

Plumbing: 4
Electrical: 4
Roof Replacement/gutters/downs: 13
Handicap grab bars: 1
Furnace and/or water heater: 4
Foundation repairs: 2
Walk-in shower: 1
Water and/or sewer line service: 2
Handicap accessibility: 1
Floor drain: 2
Sidewalk and/or stairs replacement and/or repair: 4

Depending on funding availability, homeowners may have had more than one item completed at their homes.

Project NOW provided rental assistance to 210 families, which included 313 individuals.

CR-15 - Resources and Investments 91.520(a)

Identify the resources made available

Source of Funds	Source	Resources Made Available	Amount Expended During Program Year
CDBG	public - federal	1,427,935	457,945
Housing Trust Fund	public - state	192,600	69,093
Other	public - state		

Table 3 - Resources Made Available

Narrative

The City expended \$527,038.53 on various grant programs received through CDBG and the Illinois Housing Development Authority. This is funding that is put back into our community to help achieve and exceed the City's goals and priorities.

CDBG Expenditures are broken down as follows:

Housing - \$252,554.19

Public Facilities and Improvements - \$67,919.41

General Administration and Planning - \$137,471.83

Housing Trust Fund - \$69,093.10

Identify the geographic distribution and location of investments

Target Area	Planned Percentage of Allocation	Actual Percentage of Allocation	Narrative Description
Citywide	93	98	Clients met income via verification, although their location may have resided outside of the eligibl

Table 4 – Identify the geographic distribution and location of investments

Narrative

Depending on the National Objective, there are various ways that clients can be assisted with the programs that the City offers using CDBG funds. Benefit to low and moderate-income persons or households would be the most used National Objective for our programs. This would include area benefit activities (LMA), limited clientele activities (LMC) and housing activities (LMH). The City assisted persons as outlined in our program regulations and within HUD guidelines and perimeters.

Leveraging

Explain how federal funds leveraged additional resources (private, state and local funds), including a description of how matching requirements were satisfied, as well as how any publicly owned land or property located within the jurisdiction that were used to address the needs identified in the plan.

The City of Moline uses CDBG funds to leverage other resources when and wherever possible, and to the extent that the regulations allow. Under the CDBG subrecipient program, the grantees match the awarded funds with funding from their general revenue and/or funding from other grant resources, but there is no match requirement imposed by the City. The City's current rehabilitation program has a cap on the amount of funding that can be provided to a client. If the bids come back at an amount higher than the cap, the City gives the homeowner the option to pay the difference so that they receive the maximum benefit from the program.

CR-20 - Affordable Housing 91.520(b)

Evaluation of the jurisdiction's progress in providing affordable housing, including the number and types of families served, the number of extremely low-income, low-income, moderate-income, and middle-income persons served.

	One-Year Goal	Actual
Number of Homeless households to be provided affordable housing units	0	52
Number of Non-Homeless households to be provided affordable housing units	40	0
Number of Special-Needs households to be provided affordable housing units	10	0
Total	50	52

Table 5 – Number of Households

	One-Year Goal	Actual
Number of households supported through Rental Assistance	0	210
Number of households supported through The Production of New Units	0	0
Number of households supported through Rehab of Existing Units	50	27
Number of households supported through Acquisition of Existing Units	0	0
Total	50	237

Table 6 – Number of Households Supported

Discuss the difference between goals and outcomes and problems encountered in meeting these goals.

In 2018 the City utilized CDBG funding through the Community Housing Services Program (CHS) and the Critical Assistance Program (CAP) to aid in providing affordable housing assistance to low to moderate income individuals, families, elderly and disabled, which is available to those with special and worst case needs. The housing repair programs funded by CDBG are offered by the City of Moline to ensure that low and moderate-income individuals and families, including those with special needs are not displaced due to unsafe or threatening housing conditions. Activities offered under these programs include roof

repair and replacement, furnace replacement, and other actions needed to address emergency housing conditions. Under the CAP program, provided an elderly household with handicap grab bars in their bathroom and a wheelchair ramp. Seven households were assisted with roof repairs or replacement. Two households were assisted with water heater replacement. Two households were provided with furnace repairs or replacement. Under the CAP program, eligible households are given priority on the waiting list. The City administered a Home Accessibility Grant (HAP) through the Illinois Housing Development Authority (IHDA) in 2018 to provide assistance to income-qualified households (elderly with physical limitation or persons with disabilities) to facilitate necessary repairs to remain in their homes by improving accessibility and safety. No funds were expended due to extenuating circumstances. The City of Moline also assisted the ARC of Rock Island County (serving people with intellectual and developmental needs) with site development of a new group home in Moline. Housing actions will be accomplished through existing efforts to preserve affordable housing through housing unit improvement programs and financial and housing education programs. The use of CDBG funds, combined with funding from additional federal, state, and local programs, will help the City address priorities to increase homeownership and maintain quality affordable housing. Due to limited funding, the City itself cannot always address each area of high priority on its own. The City relies on its partnerships and various agencies in the area to help reach goals and objectives throughout Moline. Project NOW and Moline Housing Authority have been a vital partner in services provided to homeless and low-income individuals. In 2018, fifty-two families were assisted through transitional housing, with over 8,044 nights of housing. 210 families (313 people) received rent and deposit assistance from Project NOW. Due to lack of funding availability, some of our numbers have not been met, such as new homeownership. The City has referred those interested in new homeownership and help with down payment assistance to a local banking agency who currently has a program to help assist with those needs. For 2019, CACUP board has approved the Homebuyers Assistance Program for the City to administer. Moline Housing Authority has three locations with 486 total units, in which two of the three locations are aimed at providing housing for elderly, disabled, and single persons.

Discuss how these outcomes will impact future annual action plans.

These numbers can make planning for future Annual Action Plans as well as Consolidated Plans a challenge. Many of these outcomes come from various agencies who also rely on funding from grants, without knowing what future funding will look like, the numbers may continue to decrease in relation to goals. With fewer dollars available to communities and/or specific programs, fewer individuals and/or families are able to be assisted. The City will continue to work towards securing funding from various agencies in order to continue to meet goals and high priorities as we have in the past as well as work with local agencies to leverage funding and have the most beneficial outcome to our community.

Include the number of extremely low-income, low-income, and moderate-income persons served by each activity where information on income by family size is required to determine the eligibility of the activity.

Number of Households Served	CDBG Actual	HOME Actual
Extremely Low-income	11	0
Low-income	5	0
Moderate-income	5	0
Total	21	0

Table 7 – Number of Households Served

Narrative Information

Twenty-one households were assisted with the City's Community Housing Services Program and Critical Assistance Program. This includes eleven extremely low-income, five low-income, and 5 moderate-income individuals.

CR-25 - Homeless and Other Special Needs 91.220(d, e); 91.320(d, e); 91.520(c)

Evaluate the jurisdiction's progress in meeting its specific objectives for reducing and ending homelessness through:

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

The City of Moline addresses homelessness issues at two fundamental levels: The first level focuses on the provision of direct services or assistance to prevent homelessness from occurring for populations that are near and/or in danger of becoming homeless. The second level involves providing funding, referrals, or cooperative assistance to other area agencies that work directly with homeless persons and families. Funding has been in the form of the following: using grant funds such as CDBG and IHDA to rehab households who but for this assistance are threatened with homelessness due to the deterioration of their homes.

The City of Moline provides referrals for homeless persons to both homeless shelters and resource providers. Examples of such referrals include referring homeless persons, or persons threatened with homelessness, to shelters such as that operated by Salvation Army of the Quad Cities. Examples of resource referrals would include providing contact information for the Northwestern Illinois Continuum of Care, which is locally coordinated through Project Now and providing contact information for the local United Way's housing resource information line and database.

Addressing the emergency shelter and transitional housing needs of homeless persons

As alluded to above, the City of Moline provides referrals to specific agencies and shelter locations so that homeless persons experiencing emergency shelter needs and homeless persons with transitional housing needs can have their individual situation evaluated and addressed. The Salvation Army is one local agency that provides such a resource and the City of Moline, through its Citizen Participation process, has awarded and funded Salvation Army in the past to assist with their efforts.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: likely to become homeless after being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); and, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs

The City addressed homeless prevention through several complimentary strategies that involved its Community Housing Services (CHS) Program, which provided general home rehabilitation assistance to low-income homeowners that typically cannot afford to make necessary improvements. The Critical

Assistance Program also provides assistance for emergency situations where a family may be required to leave the home for health and safety purposes if it were not for the assistance provided. Additionally, the City also funds and/or supports social service agencies that provide assistance to homeowners and renters that may be threatened with homelessness.

The City provides programs that focus on job creation as a means to providing economic stability, which helps persons and families to maintain decent affordable housing (e.g., Economic Development Loans, TIF loans and development incentives, Facade Improvement loans, Enterprise Zone incentives, and Historic Tax Credits). These are important programs in helping to prevent homelessness as some of the programs' clients may have been in danger of losing their home and becoming homeless were it not for the availability of job creating and sustaining economic development assistance provided by these programs. Additionally, many of the above programs have been utilized to support the development of affordable housing, thus strengthening access to employment.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

To the extent the City concentrates its CDBG funding on housing rehabilitation for low-income households, limited resources are available to directly address the needs of homeless programs. That being said, the City does make efforts to leverage limited CDBG funds by funding other agencies that provide emergency shelter, transitional housing and related assistance to homeless persons. Not only does the City take the necessary steps to address the above, the City also provides referrals to and works cooperatively with other area agencies that provide services to homeless individuals. This would include the Northwestern Continuum of Care. Such agencies included in the Northwestern Continuum of Care and related area agencies that provide services, assistance, or shelter to address the needs of the homeless include the following:

- Salvation Army Quad Cities Family Service Center
- Project NOW Housing Services
- Quad City Red Cross
- Humility of Mary Shelter
- Valley Shelter Homes
- Cafe on the Vine
- Miriam House
- Family Resources
- Iowa East Central T.R.A.I.N.
- Friendly House
- Bethany For Children and Families

- Moline Housing Authority
- Youth Service Bureau
- Council on Community Services
- Place 2B
- Christian Care - Rock Island Rescue Mission
- Dorothy Day - Catholic Worker House
- St. Joseph the Worker House Association
- Winnie's Place - Churches United

In addition to the above agencies that provide assistance, services, or shelter to address the needs of the homeless as well as addressing needs of underserved low-income populations, the United Way of the Quad Cities Area operates a 2-1-1 resource program. This program provides information and referrals on matters related to childcare, food, rent, utility assistance and other health and human service needs to which the City of Moline's Community Development staff periodically refer persons in need. As a means to better coordinate the allocation of resources and the delivery of services to persons and families in need, the United Way of the Quad Cities has recently developed core service areas around the pillars of health, education, and financial stability. This model provides a method of service delivery that strives to meet the needs of persons most in need of assistance.

CR-30 - Public Housing 91.220(h); 91.320(j)

Actions taken to address the needs of public housing

The City of Moline works with the Moline Housing Authority on various aspects of public housing. The City itself does not own or operate public housing facilities, but benefits from the three locations with 486 total units that they have available for public housing. Currently, the City of Moline is playing a supportive role in the Moline Housing Authority's effort to replace and redevelop a portion of its aged housing stock.

Actions taken to encourage public housing residents to become more involved in management and participate in homeownership

Section 8 Vouchers & Certificate Program: The Moline Housing Authority will continue to administer the Section 8 Voucher and Certification Program, which benefits extremely low-income residents in securing decent, affordable rental units. The Moline Housing Authority currently has 486 units and issued 46 vouchers in 2018. Included in their 2015-2020 Strategic Plan is their desire to develop alternative funding sources that would allow the ability to introduce homeownership housing programs to encourage self sufficiency opportunities.

Actions taken to provide assistance to troubled PHAs

n/a

CR-35 - Other Actions 91.220(j)-(k); 91.320(i)-(j)

Actions taken to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment. 91.220 (j); 91.320 (i)

Since adopting the most recent Analysis of Impediments document, the City has taken significant steps to improve its permitting processes. The City will continue to analyze those processes and seek to improve upon them. The City will also continue to actively solicit suggestions for improvement and enhanced performance from Moline residents and local developers. As part of its bi-annual fee review, the City has evaluated and reduced the application fee for certain zoning related actions since the adoption of the most recent AI; thus, making it more affordable to low income households; however, this fee reduction occurred prior to PY2018. The City is currently partnering with the cities of Davenport, Iowa and Rock Island, Illinois to update the Analysis to Impediments of Fair Housing Choice Document.

The City has also continued to examine development fees and will work to reduce those fees where possible. Toward that end, the City has continued to reduce permit fees for non-profit affordable housing developers such as Habitat for Humanity. In fact, the City has begun to budget a line item for development fees associated with Habitat for Humanity projects as a way to support and help underwrite the creation of affordable housing to, at least in part, remove or ameliorate the negative effects of barriers to affordable housing.

The City continues to work with a state agency and an affordable housing developer to advance a project that will result in 57 units of affordable housing for seniors per housing-related needs and goals identified within the City's Consolidated Plan, Comprehensive Plan, and Annual Strategic Plan. Construction began in 2018. It is anticipated to be completed in the Summer of 2019.

Actions taken to address obstacles to meeting underserved needs. 91.220(k); 91.320(j)

The City of Moline has made a conscious effort to further respond to the needs of the underserved through continuing the practice of soliciting annual applications for Public Service subrecipient grants. Non-profit entities may apply for funds up to 15% of the City's annual entitlement allocation for eligible activities assisting low-moderate income households. Eligible Public Services shall be in accordance with Section 105(a) of the Community Development Act and have included, but not limited to:

Employment services (e.g. job training); Crime prevention and public safety; Child care; Health services; Substance abuse services (e.g. counseling and treatment); Fair housing counseling; Education programs; Services for senior citizens; and Services for homeless persons. The City of Moline's CDBG public service funding element has supported many of the above service-types. Most recently, the City has made

investments to address underserved needs by allocating CDBG funding or budgeting general fund resources to support the Moline Community Development Corporation, and Habitat for Humanity's work in local underserved neighborhoods. In addition to public participation in the City's Analysis of Impediments planning processes, the City also takes actionable steps to encourage and facilitate public participation in its neighborhood planning efforts for areas that may contain underserved populations, such as the Floreciente and Edgewater neighborhoods.

Actions taken to reduce lead-based paint hazards. 91.220(k); 91.320(j)

The City of Moline was successful in securing a Lead Hazard Control grant for program years 2013-2016. This grant ended in July 2016. The City of Moline was part of the Illinois Quad Cities Healthy Homes Coalition (IQCHHC) with the City of Rock Island, City of East Moline, Rock Island Economic Growth Corporation, City of Sterling, Project NOW, and the Rock Island County Health Department, in which Moline acted as the lead. The program addressed lead hazards in a collective manner resulting in life-changing results for over 130 households. Priority was given to households with children under the age of six that had an elevated blood lead level (BLL) of 10 or above of lead. The City was able to eliminate lead hazards in homes as well as educate home owners on lead prevention and control. During 2017, the coalition identified above and lead by the City of Moline Community Development Division, drafted and submitted a new application to HUD's Lead Hazard Program. The application scored well, but limited available funding resulted in just missing the funding cut-off. However, HUD encouraged the City of Moline and its coalition to resubmit at the next funding opportunity. The coalition, which regrouped to include the City of Rock Island, City of East Moline, City of Silvis, Project NOW and the Rock Island County Health Department, in which Moline acted as the lead was successful in securing a Lead Hazard Control grant for program years 2018-2022. The coalition anticipates addressing lead hazards in a collective manner to 151 households, while continuing their efforts of educating home owners on lead prevention and control. Additionally, as means to better address lead-based paint hazards, the City has created and funded a lead abatement program under the CDBG program. Our Community Development Program Manager is currently participating in the Live Lead Free QC Healthy Homes Coalition to provide lead services to families with lead poisoned children. There are no income restrictions. The program is currently supported by private funding.

Actions taken to reduce the number of poverty-level families. 91.220(k); 91.320(j)

The City's greatest opportunity to help reduce poverty is through policies and actions that facilitate the creation and maintenance of a healthy economy that, in turn, offers jobs and economic opportunities while also investing in the community's infrastructure (e.g. housing and transportation) that enhances access to employment and economic opportunities. The City of Moline's Official Comprehensive Plan identifies Business Development and Retention, Transportation System Enhancement, Housing Development and Neighborhood Stabilization, Provision of Public Services, and Economic Development as officials goals to pursue. More specifically, the City Council annually establishes high priority projects to implement goals such as a Strong Local Economy and a Financially Strong City as well as the preceding goals listed above.

As evidence of projects and actions to enhance the community's economic vitality, the City has assisted with development projects such as Garfield School Senior Housing project and The Overlook Village, that would provide jobs and housing for low-to-moderate income persons. Additionally, projects such as the renovation and ongoing improvement of South Park Mall help ensure continued employment opportunities at one of the region's largest retail centers. The City has been instrumental in the development of the new Quad Cities Western Illinois University Riverfront Campus and other projects such as the Q Multimodal Station, Valley View Village and other development efforts throughout the community such as major infrastructure projects including the new I-74 Mississippi River Bridge, the Sylvan Island Bridge replacement, and John Deere Road Improvement project as means to further expand the labor pools options and education attainment and readiness for employment. As a method to enhancing access to employment, the local transit agency has created transit service routes to specific employment corridors. Such efforts have resulted in the growth of gross regional product, and the growth of the area's labor-shed to accommodate the need for new employees.

Actions taken to develop institutional structure. 91.220(k); 91.320(j)

Efforts made to develop institutional structure in regards to advancing affordable housing production and related services within the City of Moline are driven primarily by the actions and interactions of three groups of actors: government agencies; non-profit and for-profit organizations (especially developers and social service providers); and private lenders, corporations and landlords. The federal, state, and local government agencies provide a significant portion of funding and support for affordable housing and guide affordable housing and community development activities through their policies, program guidelines, and, in the case of the Housing Authority, the direct provision of housing units and services. These government entities often act as principal funders of the housing services provided by the non-profit and for-profit organizations. The non-profit and for-profit developers and service providers, in turn, develop affordable housing projects, offer supportive services, and influence the type of affordable housing projects built, the services offered, and the specific location of the housing services. Private lenders, in some cases with the assistance and participation of the Federal Home Loan Bank (FHLB) and the Illinois Housing Development Authority (IHDA) and their respective financing programs, also play an important institutional role within the delivery system by providing additional financing and by providing a conduit for the delivery of housing services such as subsidized first-time homebuyer loans to low and moderate income households.

The relationship among these three groups forms the basis of the housing delivery system and is a significant component of community development efforts within the City. The Community Development Division (CD) of the Planning and Development Department is the City entity responsible for housing and other neighborhood development activities. CD works closely with local groups of non-profit agencies to carry out individual affordable housing development projects; to develop housing goals and strategies; to resolve problems in the systematic delivery of housing services; and to improve the delivery of those services by individual organizations. During 2018 the City further established working relationships with the development community in regard to low-income, senior, and special needs housing development. CD works closely with several housing-related umbrella groups in the

Quad City Area: Project NOW Community Action Agency, a non-profit association of housing developers, service providers, and professionals; Habitat for Humanity, a non-profit association, and the Northwestern Illinois Housing Coalition, which is composed of several nearby communities and area agencies with an interest in providing affordable housing. Further examples of working with other entities and developing institutional structure in the past year include the City's support and participation with the Moline Community Development Corporation as well as the City's continued efforts to work with the Northwestern Illinois Housing Coalition, participating in lead-based paint coalitions in both the Illinois and Iowa Quad Cities, and developing a local coalition to access and implement IHDA funds, and Illinois Housing Trust Fund programs.

Actions taken to enhance coordination between public and private housing and social service agencies. 91.220(k); 91.320(j)

The City has used official plans such as its downtown master plan to engage private developers for the development of housing. During the past year the City has continued to encourage funding of, coordinate with, and make referrals to a number of local and regional social service providers such as Project Now, the Salvation Army, Habitat for Humanity, and the Moline Community Development Corporation.

Identify actions taken to overcome the effects of any impediments identified in the jurisdictions analysis of impediments to fair housing choice. 91.520(a)

During 2017 the City of Moline entered into a Collaborative Agreement with City's of Rock Island, Illinois and Davenport, Iowa, as well as a number of Public Housing Agencies (PHA's) within the Quad Cities Core Metropolitan Statistical Area, for the purpose of developing a bi-state, multi-jurisdictional Assessment of Fair Housing (AFH). This collaborative effort was in response to HUD urging the City of Moline and its neighboring entitlement communities and PHA's to pursue a collaborative AFH process. As part of this process, the City allocated CDBG funds and assigned staff to work with our partner entities and implement the AFH effort. However, upon guidance from HUD regarding the delayed implementation of the AFH/Consolidated Plan process, our local AFH collaborative has modified the project to develop a new Analysis of Impediments to Fair Housing Choice (AI). The collaborative began working with a consultant in June 2018 to develop a new AI.

Notwithstanding the above-described most recent actions pertaining to AFH and AI activities, the City has continued to pursue actions related to its last AI. In 2018, the City of Moline drafted the new Analysis of Impediments ("AI") to Fair Housing Choice 5 year plan. As part of this, the following impediments were identified and the following actions were taken to reduce the affects of impediments during 2018 - 2022:

Impediment: Predatory Lending

Action Taken:

- Staff maintained information on homebuyer assistance and homeowner counseling available within the community from partner agency(ies)

Impediment: Income Disparity Among Racial Groups

Action Taken:

- Partnered with neighboring cities to apply for HUD and IHDA grants to fund affordable housing programs and provided economic development assistance to local projects to stimulate job creation

Impediment: Availability of Affordable Housing

Action Taken:

- Supported affordable housing developments for low-to-moderate income families and new affordable housing construction projects
- Managed and maintained the affordable rent structure of Washington Square Apartments, which contains low-income units
- Provided printed material advertising housing rehabilitation services
- Maintained a waiting list for qualified applicants for all housing-related programs administered through the City Planning Department
- Provided referrals to local institutions providing down payment and homebuyer assistance to income qualified persons

Impediment: Lack of Local Fair Housing Law and Education Efforts

Action Taken:

- Made CDBG funds available annually for public service organizations
- Made application to HUD for funds to abate lead-based paint hazards in housing stock containing Lead-Based Paint and enhanced hazard abatement coalition efforts
- Maintained a waiting list for qualified applicants for all programs administered through the City Planning Department
- Allocated CDBG funding and City General Fund resources to address complaints received through the Code Enforcement and Neighborhood Abatement Programs
- Continued to partner with the Rock Island County Health Department to maintain and enhance the lead hazard abatement coalition

The notice, attached, also illustrates how the City of Moline reached out to non-English-speaking residents. A majority of citizens in eligible census tracts are Spanish-speaking. The notice that was released in the local newspaper was printed in both English and Spanish to accommodate accordingly. There are employees within the City who are Spanish-speaking and able to assist citizens with questions regarding the CAPER.

A draft of the CAPER was placed in the common area of the Planning and Development Department and accessible for citizen's to review. A public notice was placed in the two local newspapers as well as published on the City of Moline's website.

CR-45 - CDBG 91.520(c)

Specify the nature of, and reasons for, any changes in the jurisdiction's program objectives and indications of how the jurisdiction would change its programs as a result of its experiences.

While the City has been effective in implementing CDBG projects and achieving meaningful outcomes, certain barriers to achieving outcomes do arise from time to time. Barriers identified include the following:

- Weather-Construction season slows down between November and March due to the weather that is experienced in the Moline area. Cold weather combined with snow and/or ice prohibits contractors from doing exterior work on homes as well as infrastructure such as sidewalks.
- Limited number of months to spend funds-Based on the timing of the City's fiscal year, the timing of Congressional budget approval, and the subsequent issuance of grant agreements and spending authorization, the available time for the City to expense funds during the program year, and especially its subrecipients, becomes compressed to the point where challenges can arise in spending funds prior to year end. For the most part, it is out of the City's control to minimize or eliminate this barrier; however, the City has communicated and will continue to communicate to its subrecipients the importance of being prepared to implement funded programs and activities in a timely manner.
- Stagnant funding-Since the original drastic cut in funding a few years ago, the City has seen a fairly level funding amount, however; since it has remained level, the City has not had opportunities to create new activities or programs without reducing the funding level of another activity or program, which in turn has limited the number and scope of overall program outcomes. Unfortunately, it is out of the control of the City in terms of taking steps to overcome such a barrier, but the City is adjusting and "rightsizing" its Programs as needed.
- Limited pool of contractors (especially for lead-based paint work)- the Community Housing Services Program is a primary program for the City in terms of CDBG funding and maintaining the supply of decent, safe, and affordable housing for low-income households. At times, depending on the amount of contract work that is taking place within the metro area; available contractors for CDBG-funded rehabilitation activities can be limited. The City continues to work

to identify and educate new contractors about the Program. The City has also participated in specialty training in lead-based paint procedures to help increase the available pool of trained and certified contractors.

Though each of these barriers proves to be an impediment, it has not hindered the overall success of the programs the City provided in 2018. The relationship that the City continues to have with Contractors has allowed for open communication and coordination to work around weather, scheduling, and funding.

Does this Jurisdiction have any open Brownfields Economic Development Initiative (BEDI) grants?

No

[BEDI grantees] Describe accomplishments and program outcomes during the last year.

NOTICE
 PUBLIC NOTICE
 NOTICE OF PUBLIC HEARING AND
 PUBLIC COMMENTING PERIOD
 CITY OF MOLINE
 DRAFT CONSOLIDATED ANNUAL
 PERFORMANCE AND EVALUATION
 REPORT PROGRAM YEAR 2018
 Notice is hereby given that the City of Moline, Illinois has prepared the draft Consolidated Annual Performance and Evaluation Report (CAPER) for the Program Year beginning January 1, 2018 and ending December 31, 2018, as required by the U.S. Department of Housing and Urban Development. A copy of the CAPER will be available for public review from February 22, 2019 to March 8, 2019.
 PUBLIC HEARING: In addition, the City of Moline will hold a public hearing to review comments received on the draft CAPER at the following date, time and location:
 Date: March 11, 2019
 Time: 2:30 - 3:00 PM
 Location: City Hall, Committee of the Whole Room, 619 16 Street, Moline, IL 61265
 DESCRIPTION: The draft CAPER provides a detailed account of how the City of Moline utilized the Community Development Block Grant (CDBG) and other funds in Program Year 2018 to pursue the strategies, goals, and objectives proposed in the City's 2018 Action Plan and how well the City addressed the housing and community development needs identified in the City's 2015-2019 Consolidated Plan.
 PURPOSE: The purpose of the hearing is to review public comment on the draft of the Consolidated Annual Performance and Evaluation Report to the 2018 (Consolidated) Action Plan for the City of Moline.
 REVIEW OF THE CAPER DOCUMENT: Copies of the draft CAPER will be available for public review and comment from February 22, 2019 to March 8, 2019 at the following locations:
 Planning Department: City Hall, Planning & Development Department, 619 16 Street, Moline, IL 61265
 City's Website: www.moline.il.us
 Questions and written comments regarding the draft CAPER may be addressed to Tara Osborne, Grant & Project Accountant, at 619 16 Street, Moline, IL 61265. You may also call (309) 524-2035 or email toso@moline.il.us with any questions concerning the above document.
 ACCESSIBILITY TO MEETINGS AND DOCUMENTS
 Individuals who require a special accommodation in attending the hearing should notify Tara Osborne, Grant & Project Accountant, at 524-2035, at least 24 hours prior to the scheduled hearing time.

NOTICIA PÚBLICA
 AVISO DE AUDIENCIA PÚBLICA Y PERÍODO DE COMENTARIOS PÚBLICOS
 CIUDAD DE MOLINE
 PROYECTO DE INFORME ANUAL CONSOLIDADO DE DESEMPEÑO Y EVALUACIÓN PROGRAMA AÑO 2018
 Se da aviso de que la Ciudad de Moline, Illinois ha preparado el borrador del Reporte Anual Consolidado de Desempeño y Evaluación (CAPER) para el Año del Programa, comenzando el 1 de enero de 2018 y terminando el 31 de diciembre de 2018, según lo requiere el Departamento de Vivienda de EE.UU., Desarrollo Urbano. Una copia del CAPER estará disponible para revisión pública del 22 de febrero de 2019 al 8 de marzo de 2019.
 AUDIENCIA PÚBLICA: Además, la Ciudad de Moline llevará a cabo una audiencia pública para revisar los comentarios recibidos sobre la copia preliminar del CAPER en la fecha, hora y ubicación siguientes:
 Fecha: 11 de marzo de 2019
 Hora: 2:30 - 3:00 PM
 Ubicación: Ayuntamiento, Comité del conjunto de la sala, 619 calle 16, Moline, IL 61265
 DESCRIPCIÓN: La copia preliminar del CAPER proporciona una cuenta detallada de cómo la Ciudad de Moline utilizó su Subsidio en Bloque de Desarrollo Comunitario (CDBG) y otros fondos en el Año del Programa 2018 para perseguir las estrategias, metas y objetivos propuestos en el Plan de Acción 2018 de la Ciudad y qué tan bien la Ciudad abordó las necesidades de vivienda y desarrollo comunitario identificadas en el Plan Consolidado 2015-2019 de la Ciudad.
 PROPOSITO: El objetivo de la audiencia es revisar los comentarios públicos sobre la copia preliminar del Informe Anual Consolidado de Desempeño y Evaluación al Plan de Acción 2018 (Consolidado) para la Ciudad de Moline.
 REVISIÓN DEL DOCUMENTO DE CAPER: Las copias del borrador de CAPER estarán disponibles para revisión pública y comentarios desde el 22 de febrero de 2019 hasta el 8 de marzo de 2019 en las siguientes ubicaciones:
 Departamento de Planificación: Ayuntamiento, Departamento de Planificación y Desarrollo, 619 calle 16, Moline, IL 61265
 Sitio web de la ciudad: www.moline.il.us
 Las preguntas y los comentarios escritos sobre el proyecto CAPER pueden dirigirse a Tara Osborne, Analista de Cumplimiento de Subvenciones de Vivienda, en 619 calle 16, Moline, IL 61265. También puede llamar al (309) 524-2035 o enviar un correo electrónico a toso@moline.il.us con cualquier pregunta sobre el documento anterior.
 ACCESIBILIDAD A REUNIONES Y DOCUMENTOS
 Las personas que necesitan un acomodo especial para asistir a la audiencia deben notificar a Tara Osborne, Analista de Cumplimiento de Subvenciones de Vivienda, al 524-2035, al menos 24 horas antes de la audiencia programada.
